A Message To All Members of TAP, LLC

We at TAP, LLC, also referred to as TAP, would like to take this opportunity to welcome you to the new generation of league play. Our goal is to promote the sport of billiards in a forum that fosters fellowship, good sportsmanship and team spirit. Your affiliation with TAP is very important to us – important because it lets us know that you share the same love for the sport of billiards as we do. We hope that you enjoy your league play, and we are certain that you'll witness your skills developing as you participate in the fastest growing team sport of the new millennium.

TAP has put a good deal of effort into developing the programs offered to our members. Our research has noted that there are dozens of different ways to play the games of 8-Ball and 9-Ball, and these vary from establishment to establishment throughout the world. We've structured our rules to be as fair as we possibly can to all of our players, regardless of where they are competing. Please remember that there will be circumstances that arise that are not specifically covered in the rules. We ask you to use this booklet as a guide, and let your common sense and sportsmanship do the rest. Also remember that there are all levels of players and teams in TAP. Some like to play for fun, and others enjoy the thrill of competition. Please remember that we all have the right to play and participate. Whatever a person's reason for playing, respect them and encourage others to do their best.

TAP, and its subsidiary, POOL Net, are nationally and internationally recognized league and tournament management systems. The support of our players and our products have elevated us to where we are today, and your continued support will put us in the forefront of the industry we've all grown to love. We hope to see all of you at one of our major events, and perhaps some-day, we'll be handing you a check for the winner's share. Until then, kick back and enjoy your league experiences and remember...

*“After all the rest,
Why not the best?”*

Copyright – TAP, LLC 1-2015

Many of our members have been playing league pool for years; however, some find themselves participating in organized league play for the first time. If this is the case, a few simple rules will make your league experience, as well as those of your teammates, as enjoyable as possible.

The rules are as follows:

1. Before being allowed to compete in a TAP event or league, you must be a bona fide member in good standing with TAP and willing to play under our General Rules listed in this book. For example, filling out a complete membership application, paying your annual membership dues, league fees and tournament fees, staying active for any events, sessions or tournaments you or your team may have entered or qualified for. Remember the time to stop playing is when you have completed your obligations for the session and events for that session.
2. When you sign up to play in a league, you make a commitment to your league and teammates to play the entire league session. League pool is a team effort and only through this commitment can we foster the type of fellowship and sportsmanship that we are looking to develop through active participation in TAP. Also try your best to stay committed to the team you started with. Changing teams is sometimes needed but should be done early in the session. Decisions regarding the ability of a player to switch from one team to another will be made at the discretion of the League Director in conjunction with their League Owner and corporate office. Abuse of this privilege will not be tolerated.
3. You should make it a point to be on time to play your league matches. It is a matter of common courtesy not to keep your opponents waiting to start league play. If you do not start on time, your match could be forfeited. You can start your league with one player from your team present. League play can start no later than fifteen (15) minutes from start time. Matches are to start no later than five (5) minutes after the last match is completed.
4. Always be courteous and polite to your opponents and fellow players. While we foster a competitive environment, we don't want this to take precedence over the rights that everyone has to enjoy themselves.
5. Abusive behavior and foul language will not be tolerated, and may be cause for suspension or revocation of your TAP membership. Suspended players cannot participate in any TAP sponsored events. Players whose membership has been revoked can never participate in TAP sponsored events.

6. TAP does not condone gambling during league play.
7. Every member has an obligation to pay all league fees. Teams are responsible for their own weekly dues and paying in a timely manner. You should remember that if you do not pay, the people who suffer are your fellow team members, as your shortages may result in your team being ineligible for post-session league play or other TAP sponsored events. Also your shortages could be posted on the weekly league rosters and web site for other league teams to view. A team or player that is current in all fees may refuse to play any team or member not current in all fees. Every area is different, please talk to your League Owner or consult your local by-laws on this.
8. There is an old adage that goes “It’s not whether you win or lose, but how you play the game.” That aptly sums up our approach to league play. While we consider all of our members to be “winners,” for every match that is played there has to be an official “loser.” We expect “winners” to conduct themselves like champions, and our “losers” to conduct themselves like ladies and gentlemen.
9. If there is something that you don’t understand about the way your league is being run, we encourage you to approach your League Owner or call the corporate office (www.tapleague.com) with questions. If necessary, your question will be referred to TAP’s corporate office. All inquiries will be answered because we firmly believe that a member, who understands why something is done in a particular fashion, is one who will be more apt to continue participating in TAP activities.
10. Always respect the house rules of the establishment in which you are playing.
11. TAP’s corporate office has the right to revoke your membership at any time.
12. TAP recognizes that not all rules can be covered in a rule book. Situations arise that require interpretation on the spot. The League Director has the right to interpret the rules during league and make decisions on situations. Sometimes your League Director may not be present. If this is the case take good sportsmanship into account.
13. Each TAP territory should provide members with structured levels of authority. Recommendation for the structure is: The League Owner (Licensee) is the purchaser of the territory and the top authority in the territory, a League Operator has jurisdiction over a specific area within the territory, and a League Director oversees a specific division. Check with your League Owner for variations of this structure.

Some rules written hereinafter may be subject to change. In addition, TAP sanctioned event rules may vary for a variety of reasons. If you are fortunate enough to make it to a TAP event, be sure to have your League Owner go over those differences so you will be prepared when you come to play.

Note: In order to compete in any TAP sanctioned event, you must have a minimum of 6 matches played during the last 16 weeks before the tournament cut-off date and scored in the National data base to participate. You must also be an active “playing” member during the session in which the event is being held. You must also have 10 Lifetime matches in the format/product you are playing in.

General Guidelines For Play

8-Ball Rules

Object of the Game

The game of 8-Ball is played with fifteen (15) balls numbered one through fifteen and a cue ball. The object of the game is to pocket either all of the “low balls” (solid numbers 1-7), or all of the “high balls” (striped numbers 9-15), after which you are entitled to shoot and hopefully pocket the 8-Ball. Once this has been done, the player legally pocketing their balls and the 8-Ball wins.

Beginning Play

Choosing Your First Player

Games commence with the two Team Captains tossing a coin to determine who will be the first to announce a player. The winner of the coin toss has the option to either choose a player from his or her team, or have the opposing Team Captain or player choose a player from their team to start the first game of the match. After this has been determined, player selections will be alternated for the following matches until all league matches are completed.

A team will forfeit the 1st match if they are not ready to play within 15 minutes of their scheduled start time. Thereafter, a team will forfeit a match every 5 minutes if they are not ready to play.

A player can represent their team in active play once per night and represent that specific division on only one team per night. A player may only play on one table at a time. Multiple nights and division play are accepted and encouraged.

Lagging For the Break

Once two players have been selected, they must simultaneously “lag” for the break. The “lag shot” is executed by striking an object ball from behind the head string to the foot rail and attempting to have it come to rest as close to the head rail as possible. The winner of the “lag” is the player whose ball stops closest to the head rail. The “lag” is considered a skill shot and should never be aborted in favor of a coin toss. The winner of the “lag” has the option of either breaking or awarding his/her opponent the break. In subsequent games, the winner of the previous game breaks. In cases where the cue ball is of different weight or size from the other balls, it should not be used for the “lag.” If your lagging ball is pocketed or contacts a side rail you lose the lag. If the two lagging balls make contact players must re-lag.

Racking the Balls

The fifteen object balls are racked in a triangular shape, with the 8-Ball in the center and the other balls distributed throughout the rack in random fashion with a solid in one bottom corner and a stripe in the other. The object ball at the top of the triangle should be centered on the foot spot. The player breaking may request a rack check before breaking the balls.

The Break Shot

The player entitled to the break has cue ball-in-hand 100% behind the head string. The breaking player must first drive the cue ball directly into the rack of balls, striking the first or second ball, and causing at least five (5) balls, (the cue ball can be one of the five balls) to hit a rail. Pocketing any ball, except the cue ball constitutes a legal break. If this task has not been accomplished, the opposing player is entitled to ask for a new rack and may elect to break. This is at the non-breaking player's discretion. An attempt to break that results in the cue ball crossing the head string, but not hitting the rack, is a foul. In this case, the opposing player has the option to take the break or allow the breaking player another attempt at the break.

If any balls, other than the 8-Ball, are driven off the table during the break shot, those balls stay down and it is a ball in hand foul behind the head string or the shooter can play it where it lays. If the cue ball is pocketed, or driven off the table during the break shot, the incoming player has cue ball-in-hand 100% behind the head string. All object balls that are pocketed "remain down." In either ball in hand case, the incoming player has his/her choice of object balls that are 100% past the head string on an "open table."

(NOTE: For scoring, the breaker gets the number of balls pocketed added to his or her score under the "Made on Break" (MOB) column.). A player pocketing the 8-Ball during a legal break wins the game. If the breaking player pockets the 8-Ball and scratches or drives the cue ball off the table, which is another form of a "scratch," that player loses the game. If the player drives the 8-Ball off the table during a legally executed break, he/she loses the game. If a player pockets the 8-Ball and drives an object ball off the table, the player losses the game (NOTE: In either of these instances, the remaining balls left on the table are added to both players LOT column on the score sheet with the breaking player credited with the lower count of stripes or solids and the opponent the higher count. "Win" and "Loss" columns on the score sheet for both players must also be properly marked.)

Continuing Play After the Break

If the player pockets a ball on the break, that player continues to shoot until he/she misses or commits a foul. Regardless of which category of balls is made ("low balls" or "high balls"), the table remains "open" until a shooter has completed a skill shot by calling a ball in an assigned pocket. Once this has been accomplished, that category of balls belongs to that shooter for the remainder of the game and the remaining category of balls belongs to the opponent.

Combination shots can begin with either category of balls on an open table with the exception of the 8-Ball, which is never neutral. In an open table situation, if a legal hit is made, the called ball goes in the called pocket and the cue ball scratches or is driven off the table, the shooter is now that category of balls. The table is no longer open. To execute a legal hit in an open table situation, you must strike any ball on the table except the 8-Ball and drive some ball to a rail or pocket a ball.

Once your category of balls has been determined, you complete your category of balls until you miss, foul, play defense, or fail to pocket the intended ball in the intended pocket. When this happens, your opponent assumes control of the table and does the same until the 8-Ball is legally pocketed. (NOTE: If a foul is committed on any shot, the incoming player has cue ball-in-hand anywhere on the table (except during the break).

Once the category of balls has been determined and a player shoots the wrong category of balls, the opponent must immediately notify the player that a foul has occurred. Should the opponent not inform the shooting player and another ball is pocketed, the shooting player now has that category of balls.

Skill Shots/Good Hits

Our leagues are “call your pocket” which is also known as skill play or skill shots. Once a player has a particular category of balls, the first ball on the table that the cue ball strikes must be that category. After that, a ball on the table (any ball) must contact a rail. Pocketing a ball also constitutes contacting a rail or a good hit.

If the player pockets the called ball in a pocket other than the called pocket, that ball stays down and play passes to the opponent with the cue ball where it stopped.

If the player pockets the opponent’s ball, without pocketing the called ball in the called pocket, the opponent’s ball stays down and the opponent comes to the table with shooting the cue ball where it stopped. Anytime the 8-Ball is pocketed out of turn it is a loss of game.

If a player pockets the called ball in the called pocket and also pockets any other balls, other than the 8-Ball or cue ball, the additional balls stay down and the player continues .

A player successfully pocketing the called ball in the called pocket, without committing a foul, is considered to have completed their shot and continues shooting no matter how the ball arrives in the pocket. This means that the pocketed ball can “kiss” every ball on the table or hit every rail and if it still goes in the called pocket it is a good shot.

Jumping/Masse/Switching Cues:

During a match jump cues and switching of cues are permitted. At anytime you may switch cues or use a jump cue without notifying your opponent. If a shooting player intends on switching shafts during the match, he/she must notify the opponent of their intentions (see concessions). Jumping and Masse are allowed in TAP; however, you must respect the host location rules. Scooping the cue ball is not a legal shot. Jump shots must be performed by hitting the cue ball into the table's surface so that it rebounds from the cloth. Scooping under the cue ball to jump another ball is a ball-in-hand foul. Accidentally scooping a ball while attempting a regular shot is not a foul. **Using a shaft only is not allowed.**

“Bank” Shots

Since this is a call ball and call pocket league it is not necessary to call bank shots. If the called ball drops into the called pocket without any other foul situation occurring, it counts as a skill shot. It does not matter how many rails the object ball strikes, as long as it drops into the called pocket. This stands with all forms of bank or kick shots.

Completing Multiple Balls In One Shot

If you call your ball and pocket and complete a skill shot, it is marked as a completed shot. When completing a skill shot, any other balls, regardless of whether they are “high-balls”(stripes) or “low-balls (solids),” that drop into a pocket stay down and are marked as a dead ball on your score sheet. **You cannot call two balls at the same time.** You must declare one or the other. **Note:** anytime the 8-Ball goes in a pocket out of turn it is a loss of game.

Shooting the 8-Ball

When shooting the 8-Ball, you must mark the pocket you are calling. As long as the 8-Ball goes in the marked pocket after a good hit, the player wins. Any form of a scratch on the 8-Ball is loss of game. Anyone can remind the shooter to mark the pocket without it being considered a time-out. If the marker is already at the intended pocket, regardless of how it got there, the shooter does not have to physically touch the marker. The pocket intended is the closest pocket to the marker. When a shooter is on the 8-Ball, impeding the movement of the cue ball, and or 8-Ball, while either is still in motion results in a loss of game. The 8-ball does not have to go clean. **Any object can be used as a marker except a standard piece of chalk.**

Combination Shots

Combination shots are legal during league play. You must strike your category of balls first to execute a skill shot. The 8-Ball is never neutral, but can be used as part of a combination after the appropriate category of balls has first been hit. Any ball on the table can be used as part of the combination providing the cue ball strikes your category of balls first. If a category has not been determined, all balls are neutral with the exception of the 8-Ball as listed above.

Defensive Shots

A player must call a defensive (or safety) shot when not attempting to pocket an object ball. To execute a defensive shot the shooter must make a legal hit. Any ball pocketed after the hit stays down and the shooter surrenders their shot to their opponent where the cue ball rests. The opposing player has the right to ask the scorekeeper to record that shot as a defensive shot. Any disputes should be worked out by the players first and, if necessary, contact the League Director for the final say. Not noting a defense shot repeatedly is unsportsmanlike and disciplinary actions could be taken against that player. You can call defense and pocket your ball; however, your opponent now has command of the table where the cue ball rests. Pocketing a ball of a Defense is marked on the score sheet as a (DEF) defensive shot and a dead ball. There is no limit on the amount of times a player can call defense. (NOTE: Calling a Defense and pocketing a

ball on an open table does not give the shooter control of that category of balls. In this case the table is still open for the opponent.)

Ball Frozen to the Rail

This occurs when an object ball is touching the rail and becomes part of the rail. The opponent must declare the ball frozen before the shot is executed. If the intended object ball is frozen the shooter must do one or all of the following: (1) have the cue ball touch a rail after contacting the intended ball; (2) drive the intended ball to another rail; or (3) drive any other ball to a rail after contacting the intended ball. Remember, the match belongs to the two players. Teammates and coaches can be charged a time out for any assistance.

Stalemated Game

If both players agree they have reached a point in the game where progress towards completion cannot be made, they have the option of mutually declaring a stalemated game and should re-rack and replay the game. This occurs when neither player wants to attempt a shot. Please mark re-rack on the score sheets and count the balls left on the table as dead balls. The original breaking player of that game breaks again. If one of the two players wishes to continue play, the game must go on until a winner is determined.

Fouls:

A player committing a foul must relinquish his/her turn at the table. If a skill shot is correctly executed when the foul occurs, the shooter is awarded the shot but is penalized by having to give his/her opponent cue ball-in-hand. The following are examples of commonly occurring fouls:

Foot Foul – During any shot, a shooter must have one foot on the floor prior to and during the contact of the cue ball or they have fouled and the incoming player has cue ball-in-hand anywhere on the table. (NOTE: This rule does not apply to players who are physically impaired).

Bad Hit – If the first ball contacted by the cue ball is not of the player's category, or it is the 8-ball before it is that players legal turn at the 8-ball, it is a bad hit and considered a foul. If the table is open and a ball does not hit a rail this is considered a foul.

Scratch – If a player pockets the cue ball or drives the cue ball off the table, it is a foul. If you scratch and you are shooting the 8-Ball, it is loss of game. If a player executes a skill shot and then scratches, the shot is considered complete and the ball stays down, but the opponent is awarded cue ball-in-hand.

Failure to Drive a Ball to a Rail – A player must either legally pocket a ball or drive a ball to a rail after making a good hit or they have fouled. (NOTE: If the table is "open," any ball except the 8-Ball may be struck and then any ball must subsequently be driven to a rail to constitute a good shot, unless a ball is pocketed during the execution of the shot).

Ball Off the Table – Should a player drive the cue ball off the table, they have scratched and their opponent is awarded cue ball-in-hand, except on the break, upon which the opponent gets cue ball-in-hand behind the head string. If a player is shooting the 8-Ball and the cue ball, or the 8-Ball, is driven off the table, it is loss of game. If a player drives one of his own balls off the table, the opponent is awarded cue ball-in-hand and the ball off the table is spotted. If a player drives one of his opponent's balls off the table the ball stays down and the opponent is awarded cue ball-in-hand. On an Open Table, should a player drive an object ball off the table, that ball is potted and the opponent has cue ball-in-hand. NOTE: (Two balls that are stuck in the jaws of the pocket have two outcomes: 1st, if the two balls are below the playing surface and/or not touching the felt they are considered potted; 2nd, if the two balls are on the felt and not below the playing surface, they are in play and not potted.)

Placing the cue ball - In a ball in hand situation the cue ball is alive at all times. If while placing the cue ball, the cue ball, or the hand holding the cue ball, touches another ball a foul has occurred. A cue ball can be adjusted with your hand, or any part of the cue stick, so long as the player is not attempting to stroke the cue ball.

Push Shot – If the cue ball is frozen to the object ball, pushing through the cue ball is a legal hit. If there is separation between the two balls equal to or less than the width of a piece of chalk, the shooter must keep from double hitting the cue ball. To make a legal hit the shooter must either 1) When shooting directly at the two balls elevate the back of the cue in an attempt to put draw on the cue ball, or 2) Shoot at an angle not directly in line with the two balls. As long as an honest attempt at either is made, no foul can be called. If the distance between the two balls is greater than the width of a standard size piece of billiard chalk, a double hit of the cue ball is a ball-in-hand foul. When confronted with this situation, it is strongly recommended that a third party or referee be called to watch the hit to avoid controversy. If a third party is not called, it is the shooting player's decision. Note: Should the cue ball travel past the object ball, a foul has been committed.

“Split Hits” – When a player contacts one of his or her balls and an opponent's ball (or the 8-Ball) at the same time, this does not constitute a foul. If it is suspected that a player may play a shot that might result in a “split hit,” the non-shooting player should ask that a league official, referee or another player observe the shot. In this instance, it would be that individual's duty to watch, and if necessary, call the hit. In the absence of an observer, should a controversy over the hit arise, the call will go to the shooter.

Accidental Movement of a Ball – If a player moves the cue ball, in any way, prior to their shot it is a foul and results in ball-in-hand to the player’s opponent; this does not apply in ball-in-hand situations when a player is placing the cue ball. However, should a player accidentally move, or pocket, any other ball(s) in preparing to shoot or in the execution of a shot, it is not a foul (NOTE: Should a player accidentally pocket the 8 ball, it is loss on game.) The opposing player has the right to replace the ball(s) or leave them where they are. Should the shooter, by reflex action, attempt to replace the moved ball(s), this is not a foul, but the opposing player has the option of placing the ball(s) back to where they were originally resting or leaving them where they were moved to by the shooter. If a player touches any moving ball, moved as a result of the shot, or the moved ball is struck by another moving ball during the shot, it is a ball-in-hand foul for the opponent. If any moving ball strikes the shooters cue, bridge stick or their person it is a ball-in-hand foul to the opponent. NOTE: (If, after missing a shot, a player swings their cue in disgust and hits any balls, it is automatic loss of game.)

Payment of League Fees

All teams and individual players are responsible for the payment of league fees. Forfeited matches are no exception. The full amount agreed upon should be paid at the end of play. Any team or player(s) owing any fees can result in that team or player(s) having match points deducted from their standings at any time. This can also result in a player(s) losing the opportunity to participate in an event regardless of the team’s qualification. This also includes annual memberships. There are no league fees due for teams that are on a bye week.

Membership Payment:

All memberships must be paid before a NEW player shoots their first match. A player may not be added to a roster unless they submit a Membership Application and pay the \$20.00 annual membership fee (\$25.00 in Canada). Renewing members can look at the weekly stats and see their renewal date. All renewals must be paid in the beginning of the month they are due. Owners are responsible for player’s dues once they shoot a match. A player is responsible for paying the \$20 renewal fee the moment they shoot one match in the month of their renewal date. Any points won by a player that is not within good membership standing may be reversed.

Coaching

A player is allowed to receive coaching from a fellow teammate who has been designated as the coach prior to the start of each match. Only one coach may be designated for each player’s match and may not be changed during that match unless approved by the opposing team. The player or team coach for each team is entitled to call two (2) “time-outs” per game, lasting no more than one-minute each. Once a time out has been called, both players can communicate with their coach during that time out. Players that are a two (2) level handicap, receive two (2) one (1) minute time outs and unlimited assistance with their coach however, the coach cannot approach the table except during an official time out. However the player must still

execute their shot within the 45 second shot clock or it will be deemed one of their time outs. If a time out is called or inferred by either the coach or player, a timeout must be taken and the player is still charged with the timeout. If no time outs are available to that player the first offense will be a verbal warning the second offense will be a ball- in-hand foul. The third offense will be a loss of game. The fourth is loss of match.

During a time-out, the coach may not disrupt any balls on the table or mark the playing area of the table. Doing so constitutes a foul and the opponent is entitled to cue ball-in-hand. In a ball in hand situation the coach may not place the cue ball, if he/she does it is a foul and ball in hand to the opponent.

The coach may not use a cue stick or any other object other than their hand to line the shot up for their player. The coach must leave the table prior to the execution of the shot. The first offense, should either of these instances happen, is a verbal warning. The second and subsequent is a ball in hand foul.

After the time-out, coaches must cease communication with their players, and the player must execute his or her shot in the prescribed 45 seconds. (NOTE: An outside player on the team can talk to the coach, who can then relay that information to the player during a present time-out within the time limit. If the (1) minute time limit is exceeded and called by the opposing team, the player can take an additional (1) minute at the cost of another time-out, if they have a time-out remaining. **Note:** The link to the player is through the coach. No other passages to that player are allowed. **Only the Player or Coach can ask the opposing team if they have any time outs remaining.**

If the coach disrupts the balls, moves the balls, or marks the table in any way, it is ball-in-hand to the player's opponent. If the coach touches the table it is not a foul. To avoid controversy, the coach should avoid touching the felt.

During National & major events, each player will receive only (1), one minute time out per game because of specific time restraints.

Interference and “Side-Line” Coaching

Any person, who interferes with the course of the match by offering advice, distracting a player or otherwise disturbing play, can subject their player to a foul. In this instance, the match referee, if one is available, or opposing captain must warn the individual involved and that player's Team Captain/Coach. After the warning, any reoccurrence of the offensive behavior results in a ball in hand foul to your opponent. A second occurrence will result in loss of game for your teammate. A third violation will result in loss of match for your teammate.

Anyone on the team can announce to a player to mark their pocket for the 8-Ball. As a team player on the sideline, we encourage you to support your player. However, you are responsible to do so in a sportsmanlike manner.

Speaking Another Language:

All conversations during match play involving players, teammates, coaches and spectators are requested to be in English. An exception to this rule can be made should both players competing in the match speak and understand the shared language AND both players must agree that it is acceptable. If one of the players does not agree, regardless if they speak and understand the second language then English shall be the only language spoken. Please consult your local by-laws for penalties of violating this rule. The reason for this rule is to avoid coaching controversy.

NOTE: While in regular team play your Owner may relax restrictions on conversation between players involved in a match with their teammates. However, when teams are involved in National events or other major tournaments, no conversation will be allowed between shooting players and other members of their team. Only the designated coach can communicate with the shooting player during an official time-out called by either team. Violations of this rule may result in ball-in-hand for the opposing player. It is our suggestion that all teams follow this rule at all times while participating in TAP league play.

Slow Play

It is important for every player in the league to ensure that his or her league match progresses in a timely fashion. A 45-second shot rule exists and will be used as the benchmark for assessing slow play. If a player is taking a significantly long amount of time to execute a shot, the opposing player or coach has the right to ask a league official or the player's coach to administer a slow play warning. If, after being warned, the player continues to play slowly, the opponent will receive cue ball-in-hand. In all matters concerning slow play, the decision of the League Director or referee will be final.

Note: Before confronting the opponent's coach, you must actually time the shooter in question with a stopwatch to determine that a violation is occurring. Real time and perceived time are very different.

Most of our leagues are played at night and it is important for the matches to be completed in a timely fashion. All players should note that after a match has been completed, a team has five (5) minutes to field another player, or the match may be subject to forfeit). This also stands true when picking your player for the next match. Please do so in a timely manner. A player should be picked and ready to shoot no later than five (5) minutes after each match.

Shot Clock

All sports have a time limit and billiards is no exception. In our leagues, there is a 45-second time limit to execute your shot. The time limit commences after your opponent's shot ends and all the balls come to rest. If a time-out commences in the middle of your decision-making process, after the coaching period has ended, a new 45 seconds will be in effect. **Note:** (The 45 second shot clock is a benchmark average. Some shots can take longer or shorter depending on the level of difficulty.)

Time-Outs

A player with a handicap of 3-4-5-6-7 is entitled to two (2) time-outs per game. Each time-out is one (1) minute in duration. A player at a 2-handicap level has two (2) one (1) minute time outs and unlimited coaching within the 45-second time limit. NOTE: (See the section marked “Coaching” for additional information about local, major, and national play.)

Protests and Disputes

In our league the match belongs to the two players at the table. With this comes the responsibility of paying attention to your match whether you or your opponent is on the table. You have the right to protest a situation. Just remember, a protest needs proof in order to be evaluated. If your protest cannot be substantiated with proof, you could lose your match point for a false protest. If you and your opponent are paying attention and sportsmanship/common sense is utilized, there will be no reason for protests or disputes.

Fielding a Team – The “25 Rule”

Team Total Handicap Rules/Criteria (The “25 Rule”)

To field a legitimate five (5) player team, the sum total of the shooting player’s handicaps may not exceed twenty-five (25). **A team can play their players in any order they choose as long as the “25 Rule” is not violated.**

Violation of the “25 Rule”

If a Team Captain cannot field a legitimate five (5) player team according to the “25 Rule,” he or she must then field their team accordingly:

Total handicap for four (4) player teams cannot exceed 21 (**If your 5 lowest handicaps of players on your roster exceed 25 then you have to play 4 to 21.**)

Total handicap for three (3) player teams cannot exceed 18 (**If your 4 lowest handicaps of players on your roster exceed 21 then you have to play 3 to 18.**)

Failure to Field a Legitimate Team

If a Team Captain cannot field a legitimate team in accordance with the criteria set forth above, they will forfeit ONLY those matches that are in violation of the rule. (NOTE: It is the well-rounded team that stays the strongest throughout the league session, so choose your players wisely.) Lower level players play a big part in allowing your higher level player(s) to remain active on your team.

Adding and Dropping Players

No team should have more than eight (8) players on its roster. A team may add a player to its roster at any time during the league session as long as there are enough weeks remaining in the current session for that player to complete the six (6) matches required to make him/her a legitimate member of that team.

Byes and forfeited matches do not apply towards any player's required matches.

Teams competing in events they qualified for during the session are to use their team roster of players from that session. **There are no substitutions.** When choosing your team, make sure your teammates understand they are expected to complete the session and session events.

Note: Deadlines for adding and dropping players may vary in different areas. Be sure to consult your local by- laws for specific rules in your area.

The “Known Player” Rule

A player that is brought into the league that has, or does not have a previous handicap or league experience may be assigned a handicap by the League Director or other league official if his or her skill level is known.

Professional Players

Individuals who hold current membership in a men’s or women’s professional billiards association are not allowed to compete in TAP’s handicapped league events. If an individual’s primary source of income is from competing in pool or the individual attempts to derive their income from pool that person will also be considered a pro. The decision of who meets the above is at the league’s discretion. Although we have all skill levels of players in TAP, we still need to provide a comfortable level of protection for the recreational player. This is where our first concern lies. We also need to protect the prize funds to which our players contribute so that everyone has a fair chance of winning.

Make-up Matches

Some operators allow make-up matches and some do not. For those teams wishing to make matches up, it is important that the match be noted on your score sheet so that the credit can be applied to the correct team. Also, make-up matches must be agreed upon by both teams and have approval by the League Owner before they are considered official. All make-up matches should be completed within two (2) weeks of the date of the scheduled match. No matches can be made up within the last two weeks of league play. When a new division is starting, the League Owner may offer a new team make-ups or what is referred to as position rounds to allow that team to catch up. (NOTE: All make-ups are at the sole discretion of the League Owner.)

Forfeits

League matches can be forfeited. The following circumstances are some examples:

A scheduled team match does not commence within fifteen (15) minutes of the scheduled match time. Points will be awarded depending on your local by-laws.

A team is unable to field a player whose handicap is appropriate for the given match, as described by the criteria set forth under the “Team Total Handicap Rules/Criteria” clause. If you do not post a player within the required 5 minute time frame, that match can be forfeited.

Un-sportsmanlike conduct can result in a match being forfeited.

A match can be forfeited if the player shooting the match is not current with league fees, or submits wrong data or involves himself in any form of cheating.

A match will be forfeited by both teams if both teams only have 4 players. NOTE: (Check with your League Owner for variations on forfeits)

All forfeits should be properly marked on the score sheets. For a team to claim a forfeit, the team that has the player present will write that player in, the team that is short player(s) will write ‘forfeit’ for their player. The Win / Loss circles are then marked accordingly. All forfeited matches assigned to a player will not count as one of their six (6) required matches. **Note:** Your league fees for the forfeited match are still due regardless of whether the match was played or not.

It is impossible to document all cases where forfeitures may apply. We recommend that you stay within the guidelines of the rules and play within the spirit and intent of the rules as good sportsmen should. **Note: There will always be players who, for whatever reason, try to test the system and manipulate the rules to their advantage. League Owners and officials easily come to recognize these people, and will take the appropriate steps necessary to control their behavior. These teams or players may be disbanded from the league or tournaments at any time.**

Burnout Strategy: For Play-offs & Upper-Level Play Only

This is not a rule, but a strategy within rules. It is only necessary and used when a team is short players. The strategy is to put up one of your players that are not present in order to burn out one of the opponent’s players. You may also wait for them to put up a player that your team does not want to play and burn that player. Ex. Team A puts up a 6 and Team B puts up a player that is not present for the match. This results in a forfeit (win) for that match for Team A. Regardless of whether a player is present or not, the team must always adhere to the “25 Rule”.

Concession

Concession consists of; **1)** A player breaking down their playing cue into two pieces except to change shafts. (**A player must notify their opponent if they plan to change shafts.**) Breaking down your break cue after the last game of the match has been broken is not loss of game. **2)** The player intentionally rakes the balls on the table before the game is complete. **3)** The opponent picks up the rack in an attempt to re-rack before the opponent has taken their last shot. **4)** The opponent offers to shake hands before the 8-Ball is shot.. **5)** Putting your hand in the pocket as to catch the cue ball from scratching on the 8-Ball.

Byes

In some leagues, there will be an uneven number of teams competing during a league session. When this happens, a BYE will be written into the schedule to even out the schedule. On a night when a team is scheduled to receive a “BYE,” they will be credited three (3) points for that match. In the event of a team dropping out of a session, the BYE will come in the next week of play or the existing Bye will be eliminated. Teams, dropping out of a session, are uncontrollable and can happen. When it does, it creates a problem for the teams scheduled to play. This is out of our control as a league. We hope you will do your best as a team to complete your session.

Handicapping

League handicaps are based on raw data taken from your score sheets for each league match. Complete, clear and accurately marked score sheets are a must. Players, Team Captains, League Representatives, League Directors or Operators do not have the right to change any data on the official roster. There is always the possibility that an error has been made when posting data. If this seems to be in question, the matter should be called to the attention of the League Owner, who will be responsible for addressing the matter. If you question your League Owner’s response, please feel free to contact the corporate office through our website @ www.tapleague.com, or call our toll-free number, **1-800-984-7665**. Falsifying a roster is a serious issue that will be addressed.

New Players

A player joining the league who has not had a previously established handicap will play a “Race to 3” and will be counted as a “4” for purposes of the “25 Rule”. NOTE: (Owners may choose to set a “standard” handicap for all unrated players. Captains should call their League Owner for clarification).

Under the Known Player Rule, any player with an established handicap from any other Pool system will start at a comparable TAP handicap determined by the League Director and will shoot under the handicapped race grid.

If a player is joining an 8-Ball team and has an established TAP 9-Ball rating, they will start in 8-Ball at that rating.

When a player with an established handicap plays a new player, his or her established handicap will be counted towards the “25 Rule.” After this match, the new player’s handicap will be subject to the same criteria as all other players, and will be evaluated based on his or her performance in subsequent league matches **Note:** The handicapping formula developed by TAP is copyrighted, and as such, is proprietary property belonging to TAP. While players are entitled to an explanation of how the system works, under no circumstances will they be provided with documentation of TAP’s proprietary computer algorithms) Our handicaps range from two (2) through seven (7). A seven (7) handicap is the highest level.

Score Keeping

A league score sheet must be fully completed for every match played. This is the vehicle that determines your handicap and therefore is extremely important that these forms be completed accurately and neatly. Make sure either the Team Captain or a team player reviews or compares the sheets before leaving. Once the sheets have left the league location, they are final. As a rule, each team should assign a score keeper; however, there are cases where one person keeps score for both teams. In this case, these are the scores that will be used for accounting purposes without dispute. It is a matter of courtesy during league play that a player never keeps his or her own score because of their need to be able to concentrate on the game. However, after a player shoots, it is suggested that they keep score for the next team player. **Note:** Your league score sheets are the result of your paperwork.

If there are make-up matches or players to add/drop from your team they should be noted on the score sheet. If there are players with no "Player ID #'s" write it out in a note to the league office and put it in your team folder/packet so it can be properly taken care of. Make sure you have first and last names, along with the player(s) handicap, and their "race to" number on the sheet. This allows us to cross- reference the player if needed. Do not use nick names on the score sheets.

Score Sheet Categories

The following categories are noted on your score sheet:

COMPLETE (A Completed Skill Shot)

Every time a player completes a skill shot, it should be marked on his or her side or column of the score sheet as a "COMP." In an open table situation, if the player completes the skill shot and scratches, it is still marked as a "COMP" and the player is now that category of balls. If a player completes a skill shot and other balls go in, either the players or the opponent's balls, it is still recorded as one (1) "COMPLETE" and the other ball(s) are dead. It is the score keeper's responsibility to make sure the total "COMPLETES" are correct and legible in the appropriate areas for data entry

MISS (A Shot Not Completed)

Every time a player misses a shot, it is recorded as a "MISS." If a player misses and pockets one of his or her opponent's balls, it is still marked as a "MISS" and the opponent's ball(s) stay down. If the player misses and pockets one of his or her balls, it stays down and is marked as a "MISS." Any balls pocketed as a result of a miss are marked under dead balls. All score keeping responsibilities also apply for misses.

DEF (Defense)

When a player announces that he or she is playing a defensive shot, which is required, it is marked as such on the score sheet as a “DEF.” If this player does not successfully execute the shot, it is still marked as a defensive shot. A player may also call Defense and pocket their ball. In this case, their opponent takes command of the table where the cue ball rests. This is also marked as a defensive shot. When pocketing a ball on Defense, mark it as a “DEF” and a dead ball. All score keeping responsibilities also apply to defensive shots, also known as a safety shot.

Note: On each shot after the break, only make one hash mark for each shot, either a “COMP” “MISS” or “DEF.” **Never make a hash mark in two different categories for the same shot**

MOB (Made on Break)

This is the number of balls made on the break or flung off the table as a result of the break at the beginning of each game even if you scratch. Mark the appropriate number in this area on the score sheet.

Use whole numbers, NOT hash marks for the MOB box. If a player does not make any balls on the break, nothing is marked. Do not mark a “COMP” or “MISS” for the break shot. If a player makes the 8-Ball on the break, put a hash mark under 8OB, LOTs need to be marked for both players. All score keeping responsibilities also apply to Made on Break.

LOT (Left On Table)

This column refers to the number of balls that a player has left on the table after his or her opponent has won the game. After each game, the person that lost, in most cases, has balls of their category left on the table. Add the number of balls and mark it in this column. **Use whole numbers, NOT hash marks for the LOT box.** **Note:** If a game has an early 8-Ball, there will be balls left on the table for both the winner and the loser. All score keeping responsibilities also apply to Left On Table.

GAMES

These two columns refer to the number of games each player has won and lost. After each game, mark whether each player won or lost that game. All score keeping responsibilities also applies to the GAMES column.

MATCH

After the appropriate number of games has been played for the match, check or color in the “W” (Won) or “L” (Lost) for the appropriate player. All score keeping responsibilities also apply to the MATCH column.

TIME-OUTS

Time-outs must be marked in the appropriate boxes by crossing out the game number as each game ends to minimize confusion over whether a marked time-out is from the current game or a previous game. All score keeping responsibilities also apply to TIME-OUTS.

RACE

Use the Handicap Race Grid to determine the number of games you need to win the match. This varies, depending upon the skill level of the players involved. Simply mark the handicap and number of games needed to win in the appropriate area on the score sheet. All score keeping responsibilities also apply to the RACE column.

NAME

On your score sheet, please clearly print your player's first and last name as well as their Player ID#. Please do not use nick names. All score keeping responsibilities also apply to the NAME column.

League Session/Playoffs

A league session consists of a specified number of weeks, meeting on a designated night and consisting of two opposing teams playing a specified number of consecutive matches. The winner of these matches will be awarded one (1) point for each match. Points accumulate over the course of the league session with the top teams qualifying to play in the Titleholders Event. There are different Play-off formats. Ask your League Owner for the format used in your local area. TAP corporate has the final say on how a play-off runs, allowing no disruptions for the main event. If you do not feel your finals are within our format at a local level, please feel free to contact the corporate office.

Slop Shots

All slop shots stay down and are marked as a MISS and a dead ball on the score sheet. The player's opponent has command of the table where the cue ball comes to rest. Slop shots refer to any ball that goes into a pocket that was not called. If the ball goes into the intended or called pocket, no matter how it gets there, it is a good shot.

Glossary of Common Pool Terms

English – A term used to refer to spin placed on the cue ball by striking the cue ball to the right or left side of the cue ball's vertical axis.

Follow Stroke – A stroke executed by striking the cue ball above its center line in an effort to impart forward spin on the ball so that it moves forward after striking the object ball. This stroke is usually executed for purposes of position play.

Follow Through – Accelerating the cue stick “through” the cue ball after actual contact in an effort to ensure that the cue ball follows a true course of roll.

Foot Spot – A point marked on the playing surface centered between the side rails and two diamonds from the foot rail.

Foul – An infraction of the rules, which can terminate a player’s turn at the table.

“Frozen” – Balls that are touching each other on the table, or touching a cushion, are said to be “frozen.”

“Getting Shape” – This is acquiring good position on the next ball to be shot.

Going in Clean – The pocketed object ball drops into the pocket without touching another ball.

Head Spot – A point marked on the playing surface centered between the side rails and two diamonds from the head rail.

Head String – An imaginary line on the playing surface connecting the side rails at the position of the two diamonds from the head rail.

High Balls – The set of balls in 8-Ball consisting of the nine (9) through fifteen (15). See “Stripes.”

“Kick” – Shooting the cue ball into one or more rails in order to contact or pocket a specific object ball.

“Kiss” – When the object ball or cue ball makes contact with a ball to deflect its trajectory during a shot.

Lagging – A procedure for determining who shoots first in any match. To lag, each player places a ball behind the head string and banks it off the foot rail. The player whose ball stops closest to the head rail can elect to break. NOTE: Contacting the head rail is legal.

Low Balls – These are the set of balls in 8-Ball consisting of the one (1) through seven (7). See “Solids.”

Miscue – This occurs when the tip of a cue stick slides off the cue ball because of inadequate chalking, a defective tip, or misapplication of “English.” A miscue could lead to a ball-in-hand situation for your opponent, especially if the miscue causes the cue ball to jump over any balls on the table.

Miss – Any shot that is not successfully completed.

Object Ball – The object ball is the ball that the shooter is attempting to hit, or any other ball that is of the player’s category. In 8-Ball, “low-balls” are the type numbered one (1) through seven (7), and “high-balls” are the type numbered nine (9) through fifteen (15).

Masse'- When a player attempts to curve the cue ball around a ball in order to strike an intended ball. A masse' is accomplished by raising the butt end of the cue and using either right or left English. Even raising the butt end of the cue a little and using right or left English will cause the cue ball to curve a little. A masse' is allowed in TAP but please respect the host locations rules.

Position – Intentional placement of the cue ball after a shot.

Rack – A device used to arrange balls on the foot spot to begin a new game.

Rail – The cushion of the table.

Run – A series of consecutive shots that have been successfully completed.

Safety – A defensive move in which the shooter attempts to prevent his or her opponent from having a high percentage shot.

“Sandbagging” (*Cheating*) – When a player intentionally plays well below his or her ability in order to maintain or lower their handicap, they are said to be “sandbagging.” This is a form of cheating and is not allowed in TAP.

“Scratch” – This is pocketing the cue ball, or the cue ball leaving the playing area.

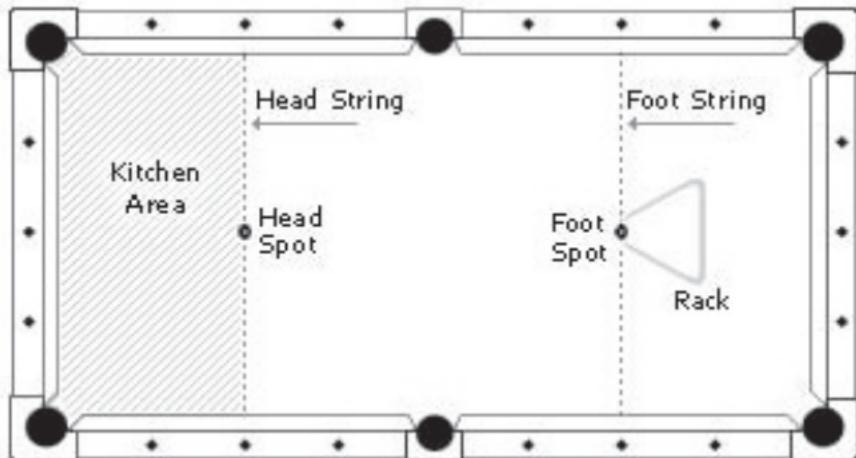

Snooker – A pocket game played on a six (6) by twelve (12) foot table with a cue ball, fifteen red balls and seven colored object balls.

“Solids” – The set of balls in 8-Ball consisting of the one (1) through seven (7). See Low Balls.

“Spotting” – Returning the balls to the table as specified by the rules of the game. The ball in question is returned to the “foot” spot.

Stop Shot – A shot executed with the intent of bring the cue ball to a complete stop immediately upon striking the object ball.

“Stripes” – The set of balls in 8-Ball consisting of the nine (9) through fifteen (15). See High Balls.

The line next to the cue ball is referred to as the “head string” or “behind the line.” You might also hear a player say “You’re in the kitchen” or “Getting your feet wet.” The line next to the rack of balls is referred to as the “foot string” or the foot spot area.

Most Frequently Asked Questions About League Play

Q – Am I good enough to play in a league?

A – It has often been said, “If you know the color of the cue ball you’re good enough to play in a league.” Here’s why. Each team of up to eight players must play five of those players each league night. The total handicaps of those five players must not exceed 25. Therefore, it is very important for each team to have some lower handicapped players in order to be able to shoot their higher handicapped players. All of the teams your team plays will also have some lower handicapped players against whom you will be very competitive even at your lower skill level.

Q – Will I become a better pool player if I join a league?

A – Your skills will improve because in game situations you will have a coach who can use time-outs to help you with deciding which shot to take and explain why. If your skill level is two (2) the coach can give you unlimited assistance throughout your match. In addition, many teams practice together at other times and you will constantly receive help with your game from the best players on your team. After all, your teammates have an investment in you and want to help you improve your skills.

Q – Do I have to show up every night the league plays?

A – That depends on how many players are on your team. If your team consists of eight (8) players and only five (5) play each league night, it would not be necessary for you to be present for every match. You should communicate with your team captain in order for him/her to plan who will play in each night.

Q – Who determines my handicap?

A – All TAP handicaps are done by computer in the TAP Corporate Office. Your handicap is based on all the stats entered into a computer from the score sheets from all of all your matches played. Each calculation is composed of 80 algorithms and your handicap is an average of all TAP players in the USA and Canada.

Q – What if I think my handicap is wrong?

A – You should ask your League Owner to request an audit from the Corporate Office. When we receive a request for an audit from the Owner, we will review all information posted in the computer against the actual score sheets to check the accuracy of the posted stats. Should we find errors in stat postings, those errors will be corrected and the computer may or may not change your handicap.

National Qualifications**These rules apply to teams that will participate in their local qualifiers and the national tournament**

- 1) You must be an active player in the format (8-Ball or 9-Ball) you qualified for.
- 2) You must be paid up to date on all leagues fees and membership dues.
- 3) You must have (10) lifetime matches in the format/product you are playing in.
- 4) You must have a minimum of (6) played matches in the format you qualified for (8-Ball or 9-Ball) in the last (16) weeks before the tournament cut-off date.
- 5) After qualifying, your team or players may switch teams or make 2 teams but the original team will come back together for the tournament.
- 6) If you are disqualified from one national event it will disqualify you from all events of that team type. Meaning if you get disqualified from the 8 ball Singles Event it disqualifies you from the 8 ball Team Event, etc.
- 7) As of September 2006 common players between teams are allowed however, a captain may not put the player against him/herself.
- 8) There are no player substitutes. The roster your team qualifies for Nationals with is your roster at Nationals.
- 9) Depending on how many teams are playing throughout your area determines how many teams advance to Nationals. Please talk to your League Director, Operator, or Owner to find out how many teams qualify from your area and how much money is put aside for your teams.
- 10) Teams advancing to Nationals will have transportation, hotel rooms and the Team Registration Fee provided per team. Transportation to and from the Tournament Location is your responsibility.

A Message To All Members of TAP, LLC

We at TAP, LLC, also referred to as TAP, would like to take this opportunity to welcome you to the new generation of league play. Our goal is to promote the sport of billiards in a forum that fosters fellowship, good sportsmanship and team spirit. Your affiliation with TAP is very important to us – important because it lets us know that you share the same love for the sport of billiards as we do. We hope that you enjoy your league play, and we are certain that you'll witness your skills developing as you participate in the fastest growing team sport of the new millennium.

TAP has put a good deal of effort into developing the programs offered to our members. Our research has noted that there are many different ways to play Scotch Doubles, and these vary from establishment to establishment throughout the world. We've structured our rules to be as fair as we possibly can to all of our players, regardless of where they are competing. Please remember that there will be circumstances that arise that are not specifically covered in the rules. We ask you to use this booklet as a guide, and let your common sense and sportsmanship do the rest. Also remember that there are all levels of players and teams in TAP. Some like to play for fun, and others enjoy the thrill of competition. Please remember that we all have the right to play and participate. Whatever a person's reason for playing, respect them and encourage others to do their best.

TAP, and its subsidiary, POOL Net, are nationally and internationally recognized league and tournament management systems. The support of our players and our products have elevated us to where we are today, and your continued support will put us in the forefront of the industry we've all grown to love. We hope to see all of you at one of our major events, and perhaps some-day, we'll be handing you a check for the winner's share. Until then, kick back and enjoy your league experiences and remember...

*"After all the rest,
Why not the best?"*

Copyright – TAP, LLC 2-2011

Many of our members have been playing league pool for years; however, some find themselves participating in organized league play for the first time. If this is the case, a few simple rules will make your league experience, as well as those of your teammates, as enjoyable as possible.

The rules are as follows:

TAP Scotch Doubles Rules:

(Applies for 8, 9, & 10 Ball)

Object of the Game:

Scotch Doubles is a game played by a team of (2) players who oppose another team of (2) players in a league match. During their league match, the (2) players function as a single entity, alternating shots until a game is brought to conclusion. This league format has proven to be very popular throughout the United States and is an excellent way for members to learn team communication skills. The rules for the corresponding TAP team format will apply when playing Scotch doubles.

NOTE: In order to play in Scotch Doubles, TAP Members must be actively participating in a team format.

Handicaps:

All new teams will begin as a new player and play a "Race to 3" match.

POOLNET will assign a handicap after the initial team stats have been entered.

Race Grids:

Teams will compete using the same Race Grid Rules for the team format they correspond with.

Player Rotation:

Player rotation must be maintained throughout each game and into the break of the next game. The non-breaking team can start each game with either player. Failure to stay in rotation is a Ball In Hand Foul.

Time Outs:

There are no Time Outs in Scotch Double. Because each team is considered (1) entity, teammates can talk to each other throughout the game as long as they stay within the (45) second Shot Clock Rule.

The rules of play for the corresponding TAP team format are to apply throughout the game.

Score keeping is identical to the score keeping in the corresponding team format.

average of all TAP players in the USA and Canada.

Each calculation is composed of 80 algorithms and your handicap is an computer from the score sheets from all of your matches played

Office. Your handicap is based on all the stats entered into a

A - All TAP handicaps are done by computer in the TAP Corporate

Q - Who determines my handicap?

A - That depends on how many players are on your team. If your team consists of eight (8) players and only five (5) play each league night, it would not be necessary for you to be present for every match. You should communicate with your team captain in order for him/her to plan who will play in each night.

Q - Do I have to show up every night the league plays?

A - Your skills will improve because in game situations you will have a coach who can use time-outs to help you with deciding which shot to take and explain why. If your skill level is two (2) the coach can give you unlimited assistance throughout your match. In addition, many teams practice together at other times and you will constantly receive help with your game from the best players on your team. After all, your teammates have an investment in you and want to help you improve your skills.

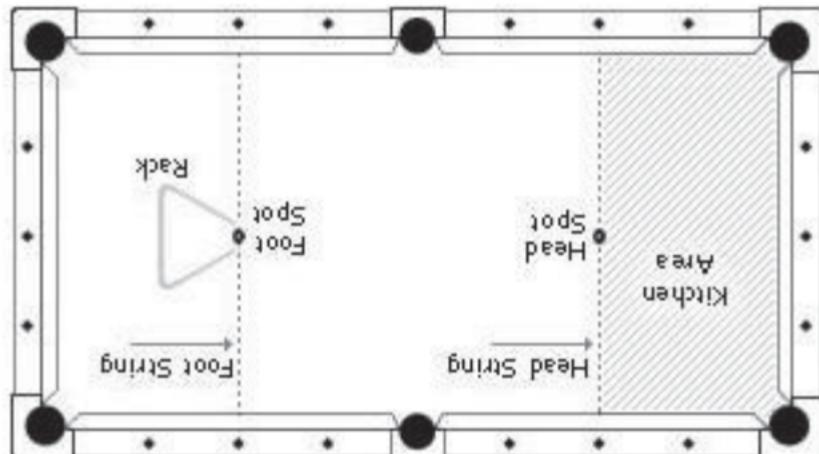

Q - Will I become a better pool player if I join a league?

A - It has often been said, "If you know the color of the cue ball you're good enough to play in a league." Here's why. Each team of up to eight handicaps must have those players each team to have some lower handicapped players. It is very important for each team to have some lower handicapped players in order to be able to shoot their higher handicapped players. All of the teams your team plays will also have some lower handicapped players against whom you will be very competitive even at your lower skill level.

Q - Am I good enough to play in a league?

Most Frequently Asked Questions About League Play

The line next to the cue ball is referred to as the "head string" or "behind the line." You might also hear a player say "You're in the kitchen" or "Getting your feet wet." The line next to the rack of balls is referred to as the "foot string" or the foot spot area.

- Massé** - When a player attempts to curve the cue ball around a ball in order to strike an intended ball. A massé is accomplished by raising the butt end of the cue and using either right or left English. Even the butt end of the cue and using either right or left English. Even please respect the host locations rules.
- Position** - Intentional placement of the cue ball after a shot.
- Rail** - The cushion of the table.
- Rack** - A device used to arrange balls on the foot spot to begin a new game.
- Run** - A series of consecutive shots that have been successfully completed.
- Safety** - A defensive move in which the shooter attempts to prevent his or her opponent from having a high percentage shot.
- Sandbagging** (*Cheatting*) - When a player intentionally plays well below his or her ability in order to maintain or lower their handicap, they are said to be „sandbagging.“ This is a form of cheating and is not allowed in TAP.
- Scatch** - This is pocketing the cue ball, or the cue ball leaving the playing area.
- Snooker** - A pocket game played on a six (6) by twelve (12) foot table with a cue ball, fifteen red balls and seven colored object balls.
- „Solids“** - The set of balls in 8-Ball consisting of the one (1) through seven (7). See Low Balls.
- „Spotting“** - Returning the balls to the table as specified by the rules of the game. The ball in question is returned to the „foot“ spot.
- Stop Shot** - A shot executed with the intent of bring the cue ball to a complete stop immediately upon striking the object ball.
- „Stripes“** - The set of balls in 8-Ball consisting of the nine (9) through fifteen (15). See High Balls.

balls" are the type numbered nine (9) through fifteen (15).

Object Ball — The object ball is the ball that the shooter is attempting to hit, or any other ball that is of the player's category. In 8-Ball, "low-balls" are the type numbered one (1) through seven (7), and "high-

Miss — Any shot that is not successfully completed.

Miscue — This occurs when the tip of a cue stick slides off the cue ball because of inadequate chalkling, a defective tip, or misapplication of "English." A miscue could lead to a ball-in-hand situation for your opponent, especially if the miscue causes the cue ball to jump over any balls on the table.

Low Balls — These are the set of balls in 8-Ball consisting of the one (1) through seven (7). See "Solids."

Lagging — A procedure for determining who shoots first in any match. To lag, each player places a ball behind the head string and banks it off the foot rail. The player whose ball stops closest to the head rail can elect to break. NOTE: Contacting the head rail is legal.

"Kiss" — When the object ball or cue ball makes contact with a ball to deflect its trajectory during a shot.

"Kick" — Shooting the cue ball into one or more rails in order to contact or pocket a specific object ball.

High Balls — The set of balls in 8-Ball consisting of the nine (9) through fifteen (15). See "Stripes."

Head String — An imaginary line on the playing surface connecting the side rails at the position of the two diamonds from the head rail.

Head Spot — A point marked on the playing surface centred between the side rails and two diamonds from the head rail.

Going in Clean — The pocketed object ball drops into the pocket without touching another ball.

"Getting Shape" — This is acquiring good position on the next ball to be shot.

"Frozen" — Balls that are touching each other on the table, or touching a cushion, are said to be "frozen."

Foul — An infraction of the rules, which can terminate a player's turn at the table.

Foot Spot — A point marked on the playing surface centred between the side rails and two diamonds from the foot rail.

Follow Through — Accelerating the cue stick "through" the cue ball after contact in an effort to ensure that the cue ball follows a true course of roll.

TIME-OUTS - A time-out must be marked in the appropriate boxes by crossing out the game number as each game ends to minimize confusion over whether a marked time-out is from the current game or a previous game. All score keeping responsibilities also apply to TIME-OUTS.

RACE - All players will play "Race to Handicap" matches. Simply mark the handicap and number of games needed to win in the appropriate area on the score sheet. All score keeping responsibilities also apply to the RACE column.

NAME - On your score sheet, please clearly print your player's first and last name as well as their Player ID#. Please do not use nick names. All last name as well as their Player ID#. Please do not use nick names. All score keeping responsibilities also apply to the NAME column.

League Session/Playoffs - A league session consists of a specified number of weeks, meeting on a designated night and consisting of two opposing teams playing a specified number of consecutive matches. The winner of these matches will be awarded one (1) point for each match. Points accumulating over the course of the league session with the top teams qualifying to play in the Titleholders Event. There are different local areas. TAP corporate has the final say on how a play-off runs, which is spotted) and are marked as a MISS and a dead ball on the cue sheet. The player's opponent has command of the table where the cue ball comes to rest. Stop shots refer to any ball that goes into a pocket that was not called.

Stop Shots - All stop shots stay down (with the exception of the 10-ball, striking the cue ball to the right or left side of the cue ball's vertical axis. English - A term used to refer to spin placed on the cue ball by center line in an effort to impart forward spin on the ball so that it moves forward after striking the object ball. This stroke is usually executed for purposes of position play.

Follow Stroke - A stroke executed by striking the cue ball above its center line in an effort to spin the cue ball to the right or left side of the cue ball's vertical axis.

English - A term used to refer to spin placed on the cue ball by striking the cue ball to the right or left side of the cue ball's vertical axis.

TIME-OUTS - Time-outs must be marked in the appropriate boxes by crossing out the game number as each game ends to minimize confusion over whether a marked time-out is from the current game or a previous game. All score keeping responsibilities also apply to TIME-OUTS.

NAME - On your score sheet, please clearly print your player's first and last name as well as their Player ID#. Please do not use nick names. All last name as well as their Player ID#. Please do not use nick names. All score keeping responsibilities also apply to the NAME column.

RACE - All players will play "Race to Handicap" matches. Simply mark the handicap and number of games needed to win in the appropriate area on the score sheet. All score keeping responsibilities also apply to the RACE column.

TIME-OUTS - A time-out must be marked in the appropriate boxes by crossing out the game number as each game ends to minimize confusion over whether a marked time-out is from the current game or a previous game. All score keeping responsibilities also apply to TIME-OUTS.

DEF (Defense)

Score Keeping

A league score sheet must be fully completed for every match played. This is the vehicle that determines your handicap and therefore is extremely important that these forms be completed accurately and neatly. Make sure either the Team Captain or a team player reviews or compares the sheets before leaving. Once the sheets have left the league location, they are final. As a rule, each team should assign a score keeper; however, there are cases where one person keeps score for both teams. In this case, these are the scores that will be used for accounting purposes without dispute. It is a matter of courtesy during league play that a player never keeps his or her own score because of their need to put it in your team folder/packet so it can be properly taken care of. Make sure you have first and last names, along with the player(s) handicap, and their "race to" number on the sheet. This allows us to cross-reference the player if needed. Do not use nick names on the score sheets.

Score Sheet Categories

The following categories are noted on your score sheet:

If there are make-up matches or players to add/drop from your team they should be noted on the score sheet. If there are players with no "Player ID #'s" write it out in a note to the league office and put it in your team folder/packet so it can be properly taken care of. Make sure you have first and last names, along with the player(s) name and their "race to" number on the sheet. This allows us to cross-reference the player if needed. Do not use nick names on the score sheets.

COMPLETE (A Completed Skill Shot)

Every time a player completes a skill shot, it should be marked on his or her side or column of the score sheet as a "COMP". If the player completes the skill shot and scratches, it is still marked as a "COMP" for the player. If the player completes a skill shot and other balls go in it is still recorded as (1) "COMP" and the other ball(s) are marked as a "MISS". Failure to make a good hit is also recorded as a "MISS". Any balls pocketed as a result of a bad hit are marked under dead balls. All score keeping responsibilities also apply for misses.

MISS (A Shot Not Completed)

Every time a player misses a shot, it is recorded as a "MISS".

If a player is joining a 10-Ball team and has an established TAP 8 or 9-Ball rating, they will start in 10-Ball at that rating. If a player joined plays both 8 & 9 ball, the 8-ball rating will be used. TAP 8 or 9-Ball rating, they will start in 10-Ball at that rating. If a player with an established handicap plays a new player, his or her established handicap will be counted towards the "25 Rule." After this match, the new player's handicap will be subject to the same criteria as all other players, and will be evaluated based on his/her performance in subsequent league matches.

Note: The handicapping formula developed by TAP is copyrighted, and as such, is proprietary property belonging to TAP. While players are entitled to an explanation of how the system works, under no circumstances will they be provided with documentation of TAP's proprietary computer algorithms.) Our handicaps range from two (2) through seven (7). A seven (7) handicap is the highest level.

Concessions Concession consists of, 1) A player breaking down their

playling cue into two pieces except to change shafts. (A player must

notify their opponent if they plan to change shafts.) Breaking down

your break cue after the last game of the match has been broken is not

loss of game. 2) The player intentionally rakes the balls on the table

before the game is complete. 3) The opponent picks up the rack in an

attempt to re-track before the opponent has taken their last shot. 4) The

opponent offers to shake hands before the 10-Ball is shot. 5) Putting

your hand in the pocket as to catch the cue ball from scratching on the

10-Ball.

Bves

In some leagues, there will be an uneven number of teams

competing during a league session. When this happens, a BYE will be

written into the schedule to even out the schedule. On a night when a

team is scheduled to receive a "BYE," they will be credited three (3)

points for that match. In the event of a team dropping out of a session,

the BYE will come in the next week of play or the existing Bye will be

eliminated. Teams, dropping out of a session, are uncontrollable and

can happen. When it does, it creates a problem for the teams scheduled

to play. This is out of our control as a league. We hope you will do

your best as a team to complete your session.

Handicapping

League handicaps are based on raw data taken from your

score sheets for each league match. Complete, clear and accurate

marked score sheets are a must. Players, Team Captains, League

Representatives, League Directors or Operators do not have the right to

change any data on the official roster. There is always the possibility

that an error has been made when posting data. If this seems to be in

question, the matter should be called to the attention of the League

Owner, who will be responsible for addressing the matter. If you

League Owner for Clarification

Burndout Strategy: For Play-offs & Upper-Level Play Only

Regardless of whether a player is present or not, the team must always adhere to the "25 Rule".

This results in a forfeit (win) for that match for Team A.

Team B puts up a player that is not present for the match at 6 and Team A puts up a 6 and Team B puts up a player that is not present for the match that your team does not want to play and burn that player. Ex. Team A the opponent's players. You may also wait for them to put up a player up one of your players that are not present in order to burn out one of necessary and used when a team is short players. The strategy is to put This is not a rule, but a strategy within rules. It is only

from the league or tournaments at any time.

control their behavior. These teams or players may be disbanded these people, and will take the appropriate steps necessary to advantage. League Owners and officials easily come to recognize reason, try to test the system and manipulate the rules to their should. Note: There will always be players who, for whatever and play within the spirit and intent of the rules as good sportsmen apply. We recommend that you stay within the guidelines of the rules It is impossible to document all cases where forfeitures may

Note: Your league fees for the forfeited match are still due regardless of whether the match was played or not.

(6) required matches. Note: Losses assigned to a player will not count as one of their six forfeited matches. The Win / Loss circles are then marked accordingly. All for their player. For a team to claim a forfeit, the team that has the player present will write that player in, the team that is short player(s) will write "forfeit". All forfeits should be properly marked on the score sheets.

A match will be forfeited by both teams if both teams only have 4 players. NOTE: (Check with your League Owner for variations on forfeits)

A match can be forfeited if the player shooting the match is not current with league fees, or submits wrong data or involves himself in any form of cheating.

Un-sportsmanlike conduct can result in a match being forfeited.

A team is unable to field a player whose handicap is appropriate for the given match, as described by the criteria set forth under the "Team Total Handicap Rules/Criteria" clause. If you do not post a player within the required 5 minute time frame, that match can be forfeited.

A scheduled team match does not commence within fifteen (15) minutes of the scheduled match time. Points will be awarded depending on your local by-laws.

Forfeits League matches can be forfeited. The following circumstances are some examples:

All make-ups are at the sole discretion of the League Owner.)

 Playoffs, Byes and forfeited matches do not apply towards

A team may add a player to its roster at any time during the league session as long as there are enough weeks remaining in the current session for that player to complete the six (6) matches required to make him/her a legitimate member of that team.

No team should have more than eight (8) players on its roster.

Additions and Dropping Players

If a Team Captain cannot field a legitimate team in accordance with the criteria set forth above, they will forfeit ONLY those matches that are in violation of the rule. (NOTE: It is the responsibility of your players wisely.) Lower level players play a big part in round robin team that stays the strongest throughout the league session, so allowing your higher level player(s) to remain active on your team.

Failure to Field a Legitimate Team

Total handicap for three (3) player teams cannot exceed 18 (If your 4 lowest handicaps of players on your roster exceed 21 then you have to play 3 to 18.)

Violation of the "25 Rule"

Total handicap for four (4) player teams cannot exceed 21 (If your 5 lowest handicaps of players on your roster exceed 25 then you have to play 4 to 21.)

To field a legitimate five (5) player team, the sum total of the shooting players' handicaps may not exceed twenty-five (25). A team can play their players in any order they choose as long as the "25 Rule" is not violated.

Team Total Handicap Rules/Criteria (The "25 Rule")

Fielding a Team - The "25 Rule"

In our league the match belongs to the two players at the table. With this comes the responsibility of paying attention to your match whether you or your opponent is on the table. You have the right to protest a situation. Just remember, a protest needs proof in order to be evaluated. If your protest cannot be substantiated with proof, you could lose your match point for a false protest. If you and your opponent are paying attention and sportsmanship/common sense is utilized, there will be no reason for protests or disputes.

Protests and Disputes

A player with a handicap of 3-4-5-6-7 is entitled to two (2) time-outs per game. Each time-out is one (1) minute in duration. A player at a 2-handicap level has two (2) one (1) minute time outs and unlimited coaching within the 45-second time limit. NOTE: (See the section marked "Coaching" for additional information about local, minor, and national play.)

Time-Outs

However, should a player accidentally move, or pocket, any other ball(s) in preparing to shoot or to the player's opponent; this does not apply in ball-in-hand situations ball, in any way, prior to their shot it is a foul and results in ball-in-hand Accidental Movement of a Ball - If a player moves the cue

“Split Hits” – When a player contacts the lowest numbered ball on the table and another ball at the same time, this does not constitute a foul. If it is suspected that a player may play a shot that might result in a “split hit,” the non-shooting player should ask that a league official, referee or another player observe the shot. In this instance, it would be that individual’s duty to watch, and if necessary, call the hit. In the absence of an observer, should a controversy over the hit arise, the call will go to the shooter.

Push Shot – If the cue ball is frozen to the object ball,

pushing through the cue ball is a legal hit. If there is separation between the two balls equal to or less than the width of a piece of chalk, the shooter must keep from double hitting the cue ball. To make a legal hit the shooter must keep from hitting the cue ball directly at the two balls an honest attempt at either is made, no foul can be called. If the distance between the two balls is greater than the width of a standard size piece of billiard chalk, a double hit of the cue ball is a ball-in-hand foul. When confronted with this situation, it is strongly recommended that a third party or referee be called to watch the hit to avoid controversy. If a third party is not called, it is the shooting player’s decision.

Placing the cue ball – In a ball in hand situation the cue ball is alive at all times. If while placing the cue ball, the cue ball, the two balls are touched by the cue ball, touches another ball a foul has occurred. A cue ball can be adjusted with your hand, or any part of the cue stick, so long as the player is not attempting to stroke the cue ball.

Ball Off the Table – Should a player drive the cue ball off the table, they have scratched and their opponent is awarded cue ball-in-hand. If a player is shooting the 10-Ball and the cue ball is driven off the table, the opponent has cue ball-in-hand. If a player drives the 10-Ball off the table, it is spotted and the opponent has cue ball-in-hand. NOTE: (Two balls that are stuck in the jaws of the pocket have two ball off the table, it is spotted and the opponent has cue ball-in-hand.)

on the felt and not below the playing surface, they are in play and not touching the felt they are considered pocketed; 2nd, if the two balls are outcomes: 1st, if the two balls are below the playing surface and/or not pocketed.)

they have fouled.

Foulure to Drive a Ball to a Rail - A player must either legally pocket a ball or drive a ball to a rail after making a good hit or

down, but the opponent is awarded cue ball-in-hand. and then scratches, the shot is considered complete and the ball stays 10-Ball, it is a cue ball-in-hand foul. If a player executes a skill shot ball off the table, it is a foul. If you scratch and you are shooting the **Scratc** - If a player pockets the cue ball or drives the cue

lowest numbered ball on the table it is a bad hit and considered a foul.

Bad Hit - If the first ball contacted by the cue ball is not the foul (NOTE: This rule does not apply to players who are physically fouled and the incoming player has cue ball-in-hand anywhere on the table) and the floor prior to and during the contact of the cue ball or they have committed a foul must have one foot on the floor when the foul occurs, the shooter is awarded

hand. The following are examples of commonly occurring fouls: the shot but is penalized by having to give his/her opponent cue ball-in-hand is correctly executed when the foul occurs, the shooter is awarded committing a foul must relinquish his/her turn at the table. If a skill foul is no "Three foul" rule in TAP 10-ball league. A player

Remember, the match belongs to the two players. another rail; or (3) drive any other ball to a rail after contacting the rail after contacting the intended ball; (2) drive the intended ball to a rail or all of the following: (1) have the cue ball touch shooter must do one before the shot is executed. If the intended object ball is frozen the becomes part of the rail. The opponent must declare the ball frozen before the shot is executed. If the intended object ball is frozen the ball frozen to the rail

Ball Frozen to the Rail

judgment when making this decision.

Note: Some shots in 10 Ball are made simply to make contact with your object ball because the ball is hidden from a clear shot. In these cases, the shot is scored as a Miss. Scorekeepers should use good ball stays down (except the 10 ball which is spotted) and the opponent has the option to play the table as is, or, have the shooter shoot again. When calling a defensive shot, if you pocket a ball, the ball stays down (except the 10 ball which is spotted) and the opponent has the option to play the table as is, or, have the shooter shoot again.

Players must call defense prior to the shot and mark it as a (def). When not attempting to pocket an object ball. The opposing player has the right to ask the scorekeeper to record that shot as a defensive shot. When a ball to the rail. A player must call a defensive (or safety) shot legal shot by hitting the lowest numbered ball on the table first, and drive a ball to the rail. To play a defensive (safety) shot, you still must execute a legal shot by hitting the lowest numbered ball on the table first, and drive a ball to the rail. A player must call a defensive (or safety) shot legal shot by hitting the lowest numbered ball on the table first, and drive a ball to the rail.

Defensive/Safety Shot

Combination shots are legal during league play. You must strike the lowest numbered ball first. Any ball on the table can be used as part of the combination providing the cue ball the lowest numbered ball first.

Combination Shots

Any object can be used as a marker except a standard piece of chalk.

Players cannot call out "mark your pocket" to the shooter unless the 10-ball is the only ball on the table. If other balls are in play it will result in a ball in hand foul to the opponent.

If the 10-ball is the only ball on the table and shot into the wrong pocket, it will be spotted and the opponent has the option to play the table as is, or, have the shooter shoot again.

If the 10-ball is the only ball on the table and shot into the incoming player.

When shooting the 10-Ball, you must mark the pocket you are calling. As long as the 10-Ball goes in the marked pocket after a good hit, the player wins. If a foul is committed while the 10-ball is pocketed then the 10-ball is spotted and it is cue ball-in-hand for the incoming player.

Shooting the 10-Ball

You must declare one or the other. **Note:** anytime the 10-Ball goes in ball on your score sheet. **You cannot call two balls at the same time.** other balls that drop into a pocket stay down and are marked as a dead ball. It does not matter how many rails the object ball strikes, as long as it drops into the called pocket. This stands with all forms of bank or pocket without any other foul situation occurring, it counts as a skill shot.

Since this is a call ball and call pocket game it is not necessary to call bank shots. If the called ball drops into the called pocket with any other foul situation occurring, it counts as a skill shot. It does not matter how many rails the object ball strikes, as long as it drops into the called pocket. This stands with all forms of bank or pocket without any other foul situation occurring, it counts as a skill shot.

“Bank” Shots

Jumping/Masse/Switching Cues:

During a match jump cues and switching of cues are permitted. At anytime you may switch cues or use a jump cue without notifying your opponent. If a shooting player intends on switching shafts during the match, he/she must notify the opponent of their intentions (see concessions). Jumping and Masse are allowed in TAP; however, you must respect the host location rules. Scooping the cue ball into the tables surface so that it rebounds from the cue ball is not a legal shot. Jump shots must be performed by hitting the ball is not a legal shot. Scooping under the cue ball to jump another ball is a ball-in-hand foul. Accidentally scooping a ball while attempting a regular shot is not a foul. **Using a shaft only is not allowed.**

A player successfully pocketing the called ball in the called pocket, without committing a foul, is considered to have completed their shot and continues shooting no matter how the ball arrives in the pocket. This means that the pocketed ball can „kiss“ every ball on the table or hit every rail and if it still goes in the called pocket it is a good shot. Also pockets any other balls, other than the 10-Ball or cue ball, the additional balls stay down and the player continues.

If a player pockets the called ball in the called pocket and with the cue ball where it stopped. Anytime the 10-Ball is pocketed out (except the 10-ball which is spotted) and play passes to the opponent (unless) in a pocket other than the called pocket, that ball stays down again. If the player pockets the called ball (other than the lowest shoot again. If the option to play the table as is, or, have the shooter opponent has the option to play the table as is, or, have the shooter pocket other than the called pocket, that ball stays down and the table first and either: 1) pocket the called ball in the called pocket, or, 2) have any ball contact a rail.

The shooter must contact the lowest numbered ball on the table first and either: 1) pocket the called ball in the called pocket, or, 2) have any ball contact a rail.

The game. This is continued until a winner is determined.
command of the table continues to shoot until they miss, foul or win
behind the head string. The break player must first drive the cue ball
directly into the rack of balls, striking the 1-ball, and causing at least
four (4) balls, (the cue ball can be one of the four balls) to hit a rail.

The player entitled to the break has cue ball-in-hand 100%
Pocketing any ball, except the cue ball constitutes a legal break. If this
task has not been accomplished, the opposing player is entitled to ask
for a new rack and may elect to break. This is at the non-breaker's
discretion. An attempt to break that results in the cue ball
crossing the head string, but not hitting the rack, is a foul. In this case,
the opposing player has the option to take the break or allow the
breaker another attempt at the break.

If any balls, other than the 10-Ball, are driven off the table
during the break shot, those balls stay down and it is a ball in hand for
the incoming player. If the cue ball is pocketed, or driven off the table
during the break shot, the incoming player has cue ball-in-hand
anywhere on the table. All object balls that are pocketed "remain
down." If the 10-ball is driven off the table, it is spotted with the
incoming player having cue ball-in-hand (anywhere on the table).

(NOTE: For scoring, the breaker gets the number of balls pocketed
added to his or her score under the "Made on Break" (MOB) column.)
If a player pockets the 10-Ball during a legal break the ball is spotted,
and the player continues to shoot. If the breaking player pockets the
cue ball-in-hand anywhere on the table, all object balls that are pocketed
are driven off the table. If a player pockets the 10-Ball and the cue ball
is spotted, the incoming player has cue ball-in-hand anywhere on
the table. If a player pockets the 10-Ball and the cue ball is not spotted,
the incoming player has cue ball-in-hand anywhere on the table.

The break shot
The player entitled to the break has cue ball-in-hand 100%
Pocketing any ball, except the cue ball constitutes a legal break. If this
task has not been accomplished, the opposing player is entitled to ask
for a new rack and may elect to break. This is at the non-breaker's
discretion. An attempt to break that results in the cue ball
crossing the head string, but not hitting the rack, is a foul. In this case,
the opposing player has the option to take the break or allow the
breaker another attempt at the break.

The "Push Out" After a Legal Break
The "push out", also known as "roll out", is allowed one
time only on the shot immediately following the break. The player
executing this shot must clearly announce their decision to their
opponent before shooting or it is treated as a normal shot. Push Outs
are recorded as a Defensive shot. To execute this shot you may shoot the
cue ball anywhere on the table. To execute this shot you may shoot the
cue ball nor is the shooter required to contact the lowest numbered ball
on the table. Any balls pocketed on a push out stay down and count as
a Dead Ball on your score sheet, with the exception of the 10-ball.
A Dead Ball is the ball that performed it, it is considered a Defensive shot on the score
sheet.

Scatching on a push out is a foul. When the push is given back to the
player who executed the push out, the player who has

Continuing Play

Racking the Balls

Balls are racked in a triangle with the 1-ball positioned at the apex of the rack, the 10-ball positioned in the middle of the rack, and the other balls placed in a random order. The 1-ball should be on the foot-spot.

Contacts a side rail you lose the lag. If the two lagging balls make contact with each other ball is of different weight or size from the other balls, it should not be used for the „lag.“ If your lagging ball is pocketed or where the cue ball is of either breaking or awarding his/her opponent the break. In subsequent games, the winner of the previous game breaks. In cases of either breaking or awarding his/her opponent the break. In abortive in favor of a coin toss. The winner of the „lag“ has the option head rail. The „lag“ is considered a skill shot and should never be attempted in favor of the „lag“ is the player whose ball stops closest to the head rail. The winner of the „lag“ is close to rest as close to the head rail as possible. striking an object ball from behind the head string to the foot rail and simultaneously „lag“ for the break. The „lag shot“ is executed by simultaneous players have been selected, they must

Lagging For the Break

A player can represent their team in active play once per night and represent that specific division on only one team per night. A player may only play on one table at a time. Multiple nights and division play are accepted and encouraged.

A team will forfeit the 1st match if they are not ready to play within 15 minutes of their scheduled start time. Thereafter, a team will forfeit a match every 5 minutes if they are not ready to play.

Choosing Your First Player

Games commence with the two Team Captains tossing a coin to determine who will be the first to announce a player. The winner of the coin toss has the option to either choose a player from his or her team, or have the opposing Team Captain or player choose a player from their team to start the first game of the match. After this has been determined, player selections will be alternated for the following matches until all league matches are completed.

Beginning Play

Object of the Game

10-Ball is a call-shot game played with a cue-ball and 10 object balls numbered 1 thru 10. You shoot the balls in ascending numerical order. The 10-ball is the game winning ball. The object of the game is to pocket the 10-ball.

Note: In order to compete in any TAP nationally sanctioned event, you must have a minimum of 6 matches played during the last 16 weeks before the tournament cut-off date and scored in the National data base to participate. You must also be an active "playing" member during the session in which the event is being held.

Some rules written herein after may be subject to change. In addition, TAP sanctioned event rules may vary for a variety of reasons. If you are fortunate enough to make it to a TAP event, be sure to have your League Owner go over those differences so you will be prepared when you come to play.

6. TAP does not condone gambling during league play.
7. Every member has an obligation to pay all league fees. Teams are responsible for their own weekly dues and paying in a timely manner. You should remember that if you do not pay, the people who suffer are your fellow team members, as your shortages may result in your team being ineligible for post-season league play or other TAP sponsored events. Also your session leagues could be posted on the weekly league rosters and website for other league teams to view. A team or player that is current in all fees may refuse to play any team or member not current in all fees. Every area is different, please talk to your League Owner or consult your local by-laws on this.
8. There is an old adage that goes, "It's not whether you win or lose, but how you play the game." That aptly sums up our approach to league play. While we encourage you to approach your League Owner or call the corporate office way your league is being run, we encourage you to approach always respect the house rules of the establishment in which you are playing.
9. If there is something that you don't understand about the way your League is being run, we encourage you to approach your League Owner or call the corporate office (www.tappleague.com) with questions. If necessary, your questions will be answered because we firmly believe that a member, who understands why something is done in a particular fashion, is one who will be more apt to continue participating in TAP activities.
10. Always respect the house rules of the establishment in which you are playing.
11. TAP's corporate office has the right to revoke your membership at any time.
12. TAP recognizes that not all rules can be covered in a rule book. Situations arise that require interpretation on the spot. The League Director has the right to interpret the rules during league and make decisions on situations. Sometimes your League Director may not be present. If this is the case take good sportsmanship into account.
13. Each TAP territory should provide members with structured levels of authority. Recommended for the structure is:
- The League Owner (Licensee) is the purchaser of the territory and the top authority in the territory, a League operator has jurisdiction over a specific area within the territory, and a League Director oversees a specific division structure.

1. Before being allowed to compete in a TAP event or league, you must be a bona fide member in good standing with TAP and willing to play under our General Rules listed in this book. For example, filling out a complete membership application, paying your annual membership dues, league fees and tournament fees, staying active for any events, sessions or tournaments you or your team may have entered or qualified for. Remember the time to stop playing is when you have completed your obligations for the session and events for that session.
2. When you sign up to play in a league, you make a commitment to your league and teammates to play the entire league session. League pool is a team effort and only through this commitment can we foster the type of fellowship and sportsmanship that we are looking to develop through active participation in TAP. Also changing teams is sometimes needed but should be done early in the session. Decisions regarding the ability of a player to switch from one team to another will be made at the discretion of the corporate office. Abuse of this privilege will not be tolerated.
3. You should make it a point to be on time to play your league matches. It is a matter of common courtesy not to keep your opponents waiting to start league play. If you do not start on time, your match could be forfeited. You can start your league later than fifteen (15) minutes from start time. Matches are to start no later than than five (5) minutes after the last match is completed.
4. Always be courteous and polite to your opponents and fellow players. While we foster a competitive environment, we don't want this to take precedence over the rights that everyone has to enjoy themselves.
5. Abusive behavior and foul language will not be tolerated, and may be cause for suspension or revocation of your TAP membership. Suspended players cannot participate in any TAP sponsored events. Players whose membership has been revoked can never participate in TAP sponsored events.

The rules are as follows:

Many of our members have been playing league pool for years; however, some find themselves participating in organized league play for the first time. If this is the case, a few simple rules will make your league experience, as well as those of your teammates, as enjoyable as possible.

- 1) Who determines my handicap?
A - All TAP handicaps are done by computer in the TAP Corporate Office. Your handicap is based on all the stats entered into a computer from the score sheets from all of your matches played. Each calculation is composed of 80 algorithms and your handicap is an average of all TAP players in the USA and Canada.
- 2) A - You should ask your League Owner to request an audit from the Corporate Office. When we receive a request for an audit from the Owner, we will review all information posted in the computer against 9-Ball) you qualified for.
You must be paid up to date on all leagues fees and membership dues.
- 3) You must have (10) lifetime matches in the format/product you are playing in.
You must have a minimum of (6) played matches in the format/product you are playing in.
- 4) You must have a minimum of (6) played matches in the format/product you are playing in.
You qualify for (8-Ball or 9-Ball) in the last (16) weeks before the tournament cut-off date.
- 5) After qualifying, your team or players may switch teams or make 2 teams but the original team will come back together if you get disqualified from the 9 ball Singles Event it disqualify you from all events of that type. Meaning disqualification from the 9 ball Team Event, etc.
- 6) If you are disqualified from one national event it will disqualify you from the 9 ball Team Event.
As of September 2006 common players between teams are allowed however, a captain may not put the player against him/herself.
- 7) There are no player substitutes. The roster your team area determines how many teams are playing throughout your area talk to your League Director, Operator, or Owner to find out how many teams qualify from your area and how much money is put aside for your teams.
- 8) Dependig on how many teams are playing throughout your area determines how many teams with is your roster at Nationals.
- 9) Dependig on how many teams are playing throughout your area determines how many teams are advancce to Nationals.
- 10) Teams advancing to Nationals will have transportation hotel rooms and the Team Registration Fee provided per team. Transportation to and from the Tournament Location is your responsibility.

Qualifiers and the national tournament

These rules apply to teams that will participate in their local

National Qualifications

- Q - What if I think my handicap is wrong?
A - You should ask your League Owner to request an audit from the Corporate Office. When we receive a request for an audit from the Owner, we will review all information posted in the computer against the actual score sheets to check the accuracy of the posted stats. Should we find errors in stat postings, those errors will be corrected and the computer may or may not change your handicap.

- Q - Who determines my handicap?
A - All TAP handicaps are done by computer in the TAP Corporate Office. Your handicap is based on all the stats entered into a computer from the score sheets from all of your matches played. Each calculation is composed of 80 algorithms and your handicap is an average of all TAP players in the USA and Canada.

plan who will play in each night.

A - That depends on how many players are on your team. If your team consists of eight (8) players and only five (5) play each league night, it would not be necessary for you to be present for every match. You should communicate with your team captain in order for him/her to help you with your game from the best players on your team. After all, your team would consist of eight (8) players and only five (5) play each league night.

Q - Do I have to show up every night the league plays?

your skills. Teammates have an investment in you and want to help you improve teams practice together at other times and you will constantly receive help with your game from the best players on your team. After all, your coach who can use time-outs to help you with deciding which shot to take and explain why. If your skill level is two (2) the coach can give you unlimited assistance throughout your match. In addition, many coaches who can assist you with decisions you will have a coach who can use time-outs to help you with deciding which shot to take and explain why. order to strike an intended ball. A masse’ is accomplished by raising the butt end of the cue and using either right or left English. Even

Masse’ — When a player attempts to curve the cue ball around a ball in

Object Ball – The object ball is the ball that the shooter is attempting to hit, or any other ball that is of the player's category. In 8-Ball, "low-balls" are the type numbered nine (9) through fifteen (15).

Miss – Any shot that is not successfully completed.

Miscue – This occurs when the tip of a cue stick slides off the cue ball because of inadequate chalkling, a defective tip, or misapplication of "English." A miscue could lead to a ball-in-hand situation for your opponent, especially if the miscue causes the cue ball to jump over any balls on the table.

Low Balls – These are the set of balls in 8-Ball consisting of the one (1) through seven (7). See "Solids."

Lagging – A procedure for determining who shoots first in any match. To lag, each player places a ball behind the head string and banks it off the foot rail. The player whose ball stops closest to the head rail can elect to break. NOTE: Contacting the head rail is legal.

"Kiss" – When the object ball or cue ball makes contact with a ball to deflect its trajectory during a shot.

"Kick" – Shooting the cue ball into one or more rails in order to contact or pocket a specific object ball.

High Balls – The set of balls in 8-Ball consisting of the nine (9) through fifteen (15). See "Stripes."

Head String – An imaginary line on the playing surface connecting the side rails at the position of the two diamonds from the head rail.

Head Spot – A point marked on the playing surface centred between the side rails and two diamonds from the head rail.

Going in Clean – The pocketed object ball drops into the pocket without touching another ball.

"Getting Shape" – This is acquiring good position on the next ball to be shot.

"Frozen" – Balls that are touching each other on the table, or touching a cushion, are said to be "frozen."

Foul – An infraction of the rules, which can terminate a player's turn at the table.

Foot Spot – A point marked on the playing surface centred between the side rails and two diamonds from the foot rail.

Follow Through – Accelerating the cue stick "through" the cue ball after contact in an effort to ensure that the cue ball follows a true course of roll.

FOLLOW Stroke – A stroke executed by striking the cue ball above its center line in an effort to impart forward spin on the ball so that it moves forward after striking the object ball. This stroke is usually executed for purposes of position play.

English – A term used to refer to spin placed on the cue ball by striking the cue ball to the right or left side of the cue ball's vertical axis.

Bad Hit

Glossary of Common Pool Terms

Shoold a ball be pocketed on a bad hit the ball stays down and marked as a MISS and a dead ball on the score sheet (with the exception of the 9-ball, which is spotted). The opponent then has command of the table with cue ball in hand.

Play-off formats. Ask your League Owner for the format used in your local area. TAP corporate has the final say on how a play-off runs, allowing no disruptions for the main event. If you do not feel your finals are within our format at a local level, please feel free to contact TAP corporate. There are different qualifying to play in the Titleholders Event. These are different accumulating over the course of the League session with the top teams playing a specified number of consecutive matches. Points these matches will be awarded one (1) point for each match. The winner of meeting on a designated night and consisting of two opposing teams A league session consists of a specified number of weeks,

League Session/Playoffs

NAME

On your score sheet, please clearly print your player's first and last name as well as their Player ID#. Please do not use nick names. All score keeping responsibilities also apply to the NAME column.

RACE

All players will play "Race to Handicap" matches. Simply mark the handicap and number of games needed to win in the appropriate area on the score sheet. All score keeping responsibilities also apply to the RACE column.

TIME-OUTS

Time-outs must be marked in the appropriate boxes by crossing out the game number as each game ends to minimize confusion over whether a marked time-out is from the current game or a previous game. All score keeping responsibilities also apply to time-outs.

TIME-OUTS

MATCH

After the appropriate number of games has been played for the match, check or color in the "W" (Won) or "L" (Lost) for the appropriate player. All score keeping responsibilities also apply to the MATCH column.

GAMES

These two columns refer to the number of games each player has won and lost. After each game, mark whether each player won or lost that game. All score keeping responsibilities also applies to the GAMES column.

LOT (Left On Table)

If a player wins the game with an early 9-Ball, there will be balls left on the table. Those balls are to be credited to the opponent in "LOT". All score keeping responsibilities also apply to Left On Table.

MOB (Made on Break)

Use whole numbers, NOT hash marks for the MOB box. If a player does not make any balls on the break, nothing is marked. Do not mark a scratch. Mark the appropriate number in this area on the score sheet.

This is the number of balls made on the break or flung off the table as a result of the break at the beginning of each game even if you scratch. Mark the appropriate number in this area on the score sheet.

DEF (Defense)

Note: On each shot after the break, only make one hash mark for each shot, either a "COMP", "MISS" or "DEF." Never make a hash mark in two different categories for the same shot.

When a player announces that he or she is playing a defensive shot, which is required, it is marked as such on the score sheet as a "DEF." If this player does not successfully execute the shot, it is still marked as a defensive shot and the opponent takes control of the table with cue ball in hand. When pocketing a ball on a Defense, the shot is recorded as a "COMP" and the shooter must continue. All score keeping responsibilities also apply to defensive shots, also known as a safety shot.

Score Keeping

A league score sheet must be fully completed for every match played. This is the vehicle that determines your handicap and therefore is extremely important that these forms be completed accurately and neatly. Make sure either the Team Captain or a team player reviews or compares the sheets before leaving. Once the sheets have left the league location, they are final. As a rule, each team should assign a scorekeeper; however, there are cases where one person keeps score for both teams. In this case, these are the scores that will be used for accounting purposes without dispute. It is a matter of courtesy during matches. In this case, the scores that will be used for both teams, however, the league never keeps his or her own score because their need to be able to concentrate on the game. However, after a league play that a player never keeps his or her own score because of their shots, it is suggested that they keep score for the next team player. Note: Your league score sheets are the result of your player shots, it is suggested that they keep score for the next team player shots, and their "race to" number on the sheet. This allows us to cross-reference the player if needed. Do not use nick names on the handicap, and their "race to" number on the sheet. This allows us to make sure you have first and last names, along with the player(s) put it in your team folder/packet so it can be properly taken care of with no "Player ID #'s" write it out in a note to the league office and your team they should be noted on the score sheet. If there are players from paperwork.

If there are make-up matches or players to add/drop from your team they should be noted on the score sheet. If there are players with no "Player ID #'s" write it out in a note to the league office and their no "Player ID #'s" write it out in a note to the league office and put it in your team folder/packet so it can be properly taken care of. Make sure you have first and last names, along with the player(s) put it in your team folder/packet so it can be properly taken care of. Make sure you have first and last names, along with the player(s) handicap, and their "race to" number on the sheet. This allows us to total "COMPLETE" are correct and legible in the appropriate areas balls(s) are dead. It is the score keeper's responsibility to make sure the balls go in it is still recorded as one (1) "COMPLETE" and the other balls go in it is still recorded as a miss. Any "MISS." Failure to make a good hit is also recorded as a miss. Any balls pocketed as a result of a bad hit are marked under dead balls. All score keeping responsibilities also apply for misses.

MISS (A Shot Not Completed)

Every time a player misses a shot, it is recorded as a mark on his or her side or column of the score sheet as a "COMP." If the player completes the skill shot and scratches, it is still marked as a "COMP" for that player. If a player completes a skill shot and scratches, it is still marked as a "COMP." Every time a player completes a skill shot, it should be marked on his or her side or column of the score sheet as a "COMP." If the player completes the skill shot and scratches, it is still marked as a "COMP" for that player. If a player completes a skill shot and scratches, it is still marked as a "COMP." Every time a player misses a shot, it should be marked on his or her side or column of the score sheet as a "COMP." If the player completes the skill shot and scratches, it is still marked as a "COMP" for that player. If a player completes a skill shot and scratches, it is still marked as a "COMP." Every time a player misses a shot, it should be marked on his or her side or column of the score sheet as a "COMP." If the player completes the skill shot and scratches, it is still marked as a "COMP" for that player. If a player completes a skill shot and scratches, it is still marked as a "COMP."

COMPLETE (A Completed Skill Shot)**Score Sheet Categories**

The following categories are noted on your score sheet:

score sheets.

cross - reference the player if needed. Do not use nick names on the handicap, and their "race to" number on the sheet. This allows us to make sure you have first and last names, along with the player(s)

handicap, and their "race to" number on the sheet. This allows us to total "COMPLETE" are correct and legible in the appropriate areas

balls(s) are dead. It is the score keeper's responsibility to make sure the balls go in it is still recorded as one (1) "COMPLETE" and the other balls go in it is still recorded as a miss. Any "MISS." Failure to make a good hit is also recorded as a miss. Any balls pocketed as a result of a bad hit are marked under dead balls. All score keeping responsibilities also apply for misses.

In some leagues, there will be an uneven number of teams competing during a league session. When this happens, a BYE will be written into the schedule to even out the schedule. On a night when a team is scheduled to receive a "BYE," they will be credited three (3) points for that match. In the event of a team dropping out of a session, the BYE will come in the next week of play or the existing Bye will be eliminated. Teams, dropping out of a session, are uncontrollable and can happen. When it does, it creates a problem for the teams scheduled to play. This is out of our control as a league. We hope you will do your best as a team to complete your session.

Handicapping

League handicaps are based on raw data taken from your marked score sheets. Player's, Team Captains, League score sheets for each league match. Complete, clear and accurate marks on your score sheets are a must. Player's, Team Captains, League Captains, who will be responsible for addressing the matter. If you change any data on the official roster. There is always the possibility that an error has been made when posting data. If this seems to be in question, the matter should be called to the attention of the League Owner, who will be responding to the matter. If you contact the League Owner for clarification).

Under the Known Player Rule, any player with an established handicap from any other pool system will start at a comparable TAP handicap determined by the League Director and will shoot under the same criteria as all other players, and will be evaluated based on his or her performance in subsequent matches. **Note:** The handicap formula developed by TAP is copyrighted, and as such, is proprietary of how the system works, under no circumstances will they be provided to an explanation property belonging to TAP. While players are entitled to an explanation of how the system works, under no circumstances will they be provided with documentation of TAP's proprietary computer algorithms.) Our handicaps range from two (2) through seven (7). A seven (7) handicap is the highest level.

New Players

A player joining the league who has not had a previously established handicap will play a "Race to 3" and will be counted as a "standard" handicap for all unrated players. Captains should call their "4" for purposes of the "25 Rule". NOTE: (Owners may choose to set a handicap from any other pool system will start at a comparable TAP handicap determined by the League Director and will shoot under the same criteria as all other players, and will be evaluated based on his or her performance in subsequent matches. **Note:** The handicap formula developed by TAP is copyrighted, and as such, is proprietary of how the system works, under no circumstances will they be provided to an explanation property belonging to TAP. While players are entitled to an explanation of how the system works, under no circumstances will they be provided with documentation of TAP's proprietary computer algorithms.) We hope you will do your best as a team to complete your session.

Congression

Congression consists of, 1) A player breaking down their playing cue into two pieces except to change shafts. (A player must notify their opponent if they plan to change shafts.) Breaking down your break cue after the last game of the match has been broken is not loss of game. 2) The player intentionally rakes the balls on the table before the game is complete. 3) The opponent picks up the rack in an attempt to re-rack before the opponent has taken their last shot. 4) Putting your hand in the pocket as to catch the cue ball from scratching on the 9-Ball.

Burndout Strategy: For Play-offs & Upper-Level Play Only

This is not a rule, but a strategy within rules. It is only necessary and used when a team is short players. The strategy is to put up one of your players that are not present in order to burn out one of the opponent's players. You may also wait for them to put up a player that your team does not want to play and burn that player. Ex. Team A puts up a 6 and Team B puts up a player that is not present for the match. This results in a forfeit (win) for that match for Team A.

Regardless of whether a player is present or not, the team must always adhere to the "25 Rule".

from the League or tournaments at any time.

It is impossible to document all cases where forfeitures may apply. We recommend that you stay within the guidelines of the rules and play within the spirit and intent of the rules as good sportsmen should. Note: There will always be players who, for whatever reason, try to test the system and manipulate the rules to their advantage. League Owners and officials easily come to recognize these people, and will take the appropriate steps necessary to control their behavior. These teams or players may be disbanded if a league or tournament at any time.

forfeits)

All forfeits should be properly marked on the score sheets. For a team to claim a forfeit, the team that has the player present will write that player in, the team that is short player(s) will write, forfeit for their player. The Win / Loss circles are then marked accordingly. All forfeited matches assigned to a player will not count as one of their six (6) required matches. Note: Your league fees for the forfeited match are still due regardless of whether the match was played or not.

A match will be forfeited by both teams if both teams only have 4 players. . NOTE: Check with your operator for variations on not current with league fees, or submits wrong data or involves himself in any form of cheating.

A match can be forfeited if the player shooting the match is not current with league fees, or submits wrong data or involves himself in any form of cheating.

The “Known Player” Rule	A player that is brought into the League that has, or does not have a previous handicap or League experience may be assigned a skill level by the League Director or other League official if his or her women’s professional billiards association are not allowed to compete in TAP’s handicap events. If an individual’s primary source of income is from competing in pool or the individual attempts to derive their income from pool that person can also be considered a professional player.
Professional Players	Individuals who hold current membership in a men’s or women’s professional billiards association are not allowed to compete in TAP’s handicap events. If an individual’s primary source of income is from competing in pool or the individual attempts to derive their income from pool that person can also be considered a professional player.
Known Player Rule	A player that is brought into the League that has, or does not have a previous handicap or League experience may be assigned a skill level by the League Director or other League official if his or her women’s professional billiards association are not allowed to compete in TAP’s handicap events. If an individual’s primary source of income is from competing in pool or the individual attempts to derive their income from pool that person can also be considered a professional player.
Make-up Matches	Some Owners allow make-up matches and some do not. For those teams wishing to make matches up, it is important that the match be noted on your score sheet so that the credit can be applied to the correct team. Also, make-up matches must be agreed upon by both teams and have approval by the League Owner before they are considered official. All make-up matches should be completed within two (2) weeks of the date of the scheduled match. No matches can be made up within the last two weeks of League play. When a new division is starting, the League Owner may offer a new team make-ups or what is referred to as position rounds to allow that team to catch up. (NOTE: All make-ups are at the sole discretion of the League Owner.)
Forfeits	League matches can be forfeited. The following circumstances are some examples:
(15) minutes of the scheduled match time. Points will be awarded depending on your local by-laws.	A scheduled team does not commence within fifteen (15) minutes of the scheduled match time. Points will be awarded depending on your local by-laws.
Two (2) weeks of the date of the scheduled match. No matches can be made up within the last two weeks of League play. When a new division is starting, the League Owner may offer a new team make-ups or what is referred to as position rounds to allow that team to catch up. (NOTE: All make-ups are at the sole discretion of the League Owner.)	All make-ups are at the sole discretion of the League Owner.

Note: Deadlines for adding and dropping players may vary in different areas. Be sure to consult your local by-laws for specific session events.

Teams competing in events they qualified for during the session are to use their team roster of players from that session. There are no substitutions. When choosing your team, make sure you are not exceeding the six (6) matches that your teammates understand they are expected to complete the session and session events.

Byes and forfeited matches do not apply towards any player's required matches.

No team should have more than eight (8) players on its roster. A team may add a player to its roster at any time during the league session as long as there are enough weeks remaining in the current session for that player to complete the six (6) matches required to make him/her a legitimate member of that team.

Addition and Dropping Players

If a Team Captain cannot field a legitimate team in accordance with the criteria set forth above, they will forfeit ONLY those matches that are in violation of the rule. (NOTE: It is the well-rounded team that stays the strongest throughout the league session, so choose your players wisely.) Lower level players play a big part in allowing your higher level player(s) to remain active on your team.

Failure to Field a Legitimate Team

Total handicap for three (3) player teams cannot exceed 18 (If your 4 lowest handicaps of players on your roster exceed 21 then you have to play 3 to 18).

Total handicap for four (4) player teams cannot exceed 21 (If your 5 lowest handicaps of players on your roster exceed 25 then you have to play 4 to 21). Accordingly:

If a Team Captain cannot field a legitimate five (5) player team according to the "25 Rule," he or she must then field their team shooting players in any order they choose as long as the sum total of the shooting players' handicaps may not exceed twenty-five (25). A

Violation of the "25 Rule"

To field a legitimate five (5) player team, the sum total of the shooting players' handicaps may not exceed twenty-five (25). A team can play their players in any order they choose as long as the "25 Rule" is not violated.

Team Total Handicap Rules/Criteria (The "25 Rule")

Fielding a Team - The "25 Rule"

In our League the match belongs to the two players at the table. With this comes the responsibility of paying attention to your opponent's moves. You have the right whether you or your opponent is on the table. You have the match whether you or your opponent is on the table. You have the table.

is utilized, there will be no reason for protests or disputes.

Protests and Disputes

A player with a handicap of 3-4-5-6-7 is entitled to two (2) time-outs per game. Each time-out is one (1) minute in duration. A player at a 2-handicap level has two (2) one (1) minute outs and unlimited coaching within the 45-second time limit. See the section marked "Coaching" for additional information.

Time-Outs

All sports have a time limit and billiards is no exception. In our leagues, there is a 45-second time limit to execute your shot. The time limit commences after your opponent's shot ends and all the balls come to rest. If a time-out commences in the middle of your decision-making process, the time remaining on the clock is still in use.

Note: The 45 second shot clock is a benchmark average. Some shots can take longer depending on the level of difficulty.

Shot Clock

Most of our leagues are played at night and it is important for the matches to be completed in a timely fashion. All players should note that after a match has been completed, a team has five (5) minutes to stand another player, or the match may be subject to forfeit. This also stands true when picking your player for the next match. Please do so in a timely manner. A player should be picked and ready to shoot no later than five (5) minutes after each match.

Slow Play

Note: Before continuing the opponents coach, you must actually violate in occurring. Real time and perceived time are very different.

If a player is taking a significantly long amount of time to play, the decision of the League Director or referee will be final.

If, after being warned, the player continues to play slowly, the league official or the player's coach to administer a slow play warning.

It is important for every player in the league to ensure that his or her league match progresses in a timely fashion. A 45-second shot rule exists and will be used as the benchmark for assessing slow play. If a player is taking a significantly long amount of time to execute a shot, the opposing player or coach has the right to ask a

Slow Play

NOTE: While in regular team play your Owner may relax restrictions on conversations between players involved in a match with their teammates. However, when teams are involved in National events or other major tournaments, no conversation will be allowed between coaches. Coaches can communicate with the shooting player during an official shoot-out called by either team. Violations of this rule may result in ball-in-hand for the opposing player. It is our suggestion that all teams follow this rule at all times while participating in TAP League play.

All conversations during match play involving players, coaches and spectators are requested to be in English. An exception to this rule can be made should both players competing in the same matches, coaches and spectators are requested to be in English. An exception to this rule can be made should both players competing in the same matches, coaches and spectators are requested to be in English. An English coach shall be the only language spoken. Please consult your local by-laws for penalties of violating this rule. The reason for this rule is to avoid coaching controversy.

Speaking Another Language:

If the coach disrupts the balls, moves the balls, or marks the table in any way, it is ball-in-hand to the player's opponent. If the coach touches the table it is not a foul. To avoid controversy, the coach should avoid touching the felt.

Note: The link to the player is through the coach. No other remaking. **Only the Player or Coach can ask** for passagees to that player are allowed. **Only the Player or Coach can ask** for time outs remaining. After the cost of another time-out, if they have a time-out minute at the cost of the opposing team, the player can take an additional (1) minute at the cost of another team, if they have a time-out called by the opposing team. If the (1) minute limit is exceeded and out within the time limit. If the (1) minute limit is exceeded and who can then relay that information to the player during a present time-fasion. (NOTE: An outside player on the team can talk to the coach, their players, and the player must execute his or her shot in a timely fashion. After the time-out, coaches must cease communication with

verbal warning. The second and subsequent is a ball in hand foul. The first offence, should either of these instances happen, is a shot. The coach must leave the table prior to the execution of the player.

any other object other than their hand to line the shot up for their and ball in hand to the opponent. The coach may not use a cue stick or situation the coach may not place the cue ball, if he/she does it is a foul and the opponent is entitled to cue ball-in-hand. In a ball in hand table or mark the playing area of the table. Doing so constitutes a foul During a time-out, the coach may not disrupt any balls on the match.

hand foul. The third offence will be a loss of game. The fourth is loss of offence will be a verbal warning the second offence will be a ball-in-hand. If no time outs are available to that player the first with the timeout. If a time out is taken and the player is still charged coach or player, a timeout must be taken and the player is still charged one of their time outs. If a time out is called or inferred by either the execute their shot within the 45 second shot clock or it will be deemed table except during an official time out. However the player must still assistance with their coach however, the coach cannot approach the handicaps, receive two (2) one (1) minute time outs and unlimited call two (2) "time-outs" per game, lasting no more than one-minute with their coach during that time out. Players that are a two (2) level each. Once a time out has been called, both players can communicate opposing team. The player or team coach for each team is entitled to and may not be changed during that match unless approved by the each match. Only one coach may be designated for each player's match teammate who has been designated as the coach prior to the start of A player is allowed to receive coaching from a fellow

disgust and hits any balls, it is automatic loss of game.)

NOTE: (If, after missing a shot, a player swims their cue in opponent. If any moving ball strikes the shooter's cue, foul is struck by another moving ball during the shot, it is a ball-in-hand touches any moving ball, moved as a result of the shot, or the move leaving them where they were moved to by the shooter. If a player of placing the ball(s) back to where they were originally resting or moved ball(s), this is not a foul, but the opposing player has the option to replace the ball. Should the shooter, by reflex action, attempt to replace the opposing player has the right to replace the ball(s) or leave them where accidentally pocket the 9 ball, it is automatically replaced.) The in the execution of a shot, it is not a foul (**NOTE:** Should a player accidentally move, or pocket, any other ball(s) in preparing to shoot or cue ball, touches another ball a foul has occurred. Should a player ball. If while placing the cue ball, the cue ball, or the hand holding the not apply in ball-in-hand situations when a player is placing the cue ball. If while placing the cue ball, in any way, prior to their shot it is a foul and results in ball-in-hand to the player's opponent; this does not apply moves the cue ball, in any way, prior to their shot

Accidental Movement of Balls

controversy over the hit arise, the shot goes to the shooter.

In this instance, it would be that individual's duty to watch, and if necessary, call the hit. In the absence of an observer, should a another player (that is not on either team) observe the shot.

the non-shooting player should ask that a league official, referee or suspect that a player may play a shot that might result in a "split hit," constitute a foul. Simultaneous contact of two balls is a good hit. If it is ball on the table and another ball at the same time, this does not "Split Hits" - When a player contacts the lowest numbered committed.

Should the cue ball travel past the object ball, a foul has been third party is not called, it is the shooting player's decision. Note: party or referee be called to watch the hit to avoid controversy. If a billioniard chalk, a double hit of the cue ball is a ball-in-hand foul. When the two balls is greater than the width of a standard size piece of attempt at either is made, no foul can be called. If the distance between

Push Shot - If the cue ball is frozen to the object ball, pushing through the cue ball is a legal hit. If there is separation between the two balls equal to or less than the width of a piece of chalk, the shooter must keep from double hitting the cue ball. To make a legal hit the shooter must either 1.) When shooting directly at the two balls elevate the back of the cue in an attempt to put draw on the cue ball, or 2.) Shoot at an angle not directly in line with the two balls. As long as an honest shot is made a legal hit the cue ball is legal to hit the two balls.

Scratch/Ball Off the Table - If a player pockets the cue ball or drives the cue ball off the table, it is a foul. If a player executes a shot and then scratches, the shot is considered complete and the ball stays down, unless the 9-ball drops or is driven off the table then it is spotted. Any other ball stays down and ball-in-hand for the incoming player. Any balls driven off the table, with the exception of the 9-ball, are recorded as Dead Balls. NOTE: (Two balls that are stuck in the jaws of the pocket have two outcomes: 1st, if the two balls are below the playing surface and/or not touching the felt and they are considered pocketed; 2nd, if the two balls are on the felt and not below the playing surface, they are in play and not pocketed.)

Fouls: There is no "Three foul" rule in TAP 9-ball League. A player committing a foul must relinquish his/her turn at the table. The following are examples of commonly occurring fouls.

Defensive: When calling a defensive shot, if you pocket a ball, you must continue shooting. That shot is marked as a COMP on the score sheet. If the 9 Ball is pocketed on a defensive shot, it is spotted and the opponent gets to shoot. Note: Some shots in 9 Ball are made simply to make contact with your object ball because the ball is hidden from a clear shot. In these cases, a Miss should be marked instead of a defensive. Scorkeepers should use good judgment when making this decision.

To play a defensive (safety) shot, you still must execute a legal shot by hitting the lowest numbered ball on the table first, and drive a ball to the rail. A player must call a defensive (or safety) shot unless the 9-ball is the only ball on the table. If other balls are in play and it's the opponent's turn playing the cue ball where it rests. The ball is scored as a Miss.

If the 9-ball is shot into the wrong pocket, it will be spotted and it's the opponent's turn to "mark your pocket" to the shooter unless the 9-ball is the only ball on the table. If other balls are in play the 9-ball is pocketed and it is ball-in-hand for the incoming player. Both players. The 9 ball is the only ball a shooter is required to call, and mark, a pocket for. If the 9-ball is pocketed legally, the game is over, however, if a foul is committed while the 9-ball is pocketed then the 9-ball is spotted and it is ball-in-hand for the incoming player.

Defensive/Safety Shot

In TAP team 9-ball the 9-ball is always the game ball for both players. The 9 ball is the only ball a shooter is required to call, and mark, a pocket for. If the 9-ball is pocketed legally, the game is over, however, if a foul is committed while the 9-ball is pocketed then the 9-ball is spotted and it is ball-in-hand for the incoming player.

Shooting the 9-ball

the table.

and the opponent comes to the table with cue ball in hand anywhere on hit a rail, it is a "bad hit". A bad hit means a foul has been committed numbered ball on the table, or the cue ball is pocketed or a ball fails to good hit. If the cue ball first strikes any ball other than the lowest ball on the table (any ball) must contact a rail. Pocketing a ball is also a You do not have to call your pocket except for the 9 ball. After that, a numbered ball on the table before any other ball to execute a legal hit. The shooter must make the cue ball contact the lowest

two large balls make contact, players must re-lag. If the large ball is pocketed or contacts a side rail you lose the lag. If the attempt to have it come to rest closest to the head rail. If your simultaneous "lag" for break. The "lag shot" is executed by striking an object ball from behind the head string, to the foot rail, and who breaks. Once two players have been selected, they must see who breaks. Once you have selected your players, they must lag to see

Lagging For the Break

division play are accepted and encouraged. Player may only play on one table at a time. Multiple nighs and night and represent that specific division on only one team per night. A completed. A player can represent their team in league matches are altermated for the following matches until all league matches are matched. After this has been determined, player selections will be choose a player from the opposing Team Captain or player from his or her team, or have the first game of the first tosses a coin to determine who will be the first to announce a player. The winner of the coin toss has the option to either choose a player from you to continue your turn at the table. On balls numbered 1 thru 8 allow you to contact the lowest numbered ball, any completions that follow have contacted the lowest numbered ball, any completions that follow have contacted the lowest numbered ball on the table first to begin a legal shot. Once you have contacted the lowest numbered ball, any completion that follows the shotter does NOT have to call their pocket. A player wins the game when he/she has legally pocketed the 9-ball in a called pocket.

Choosing Your First Player

Beginning Play

Team Tap 9-ball is played with nine object balls numbered 1 through 9 and the cue ball. On any shot the cue ball must contact the lowest numbered ball with the cue ball in a legal shot. Once you allow you to continue your turn at the table. On balls numbered 1 thru 8 have contacted the lowest numbered ball, any completion that follows the shotter does NOT have to call their pocket. A player wins the game when he/she has legally pocketed the 9-ball in a called pocket.
